## MUSSOLINI SAYS BUTLER AFFAIR IS CLOSED INCIDENT

Cables Envoy He Felt Sure He Would Obtain "Just Redress From Fairness of Americans."

## J. W. DAVIS MAY DEFEND GENERAL

White House Says President Had No Part in Note of Apology—Heflin Makes Protest Against Arrest.

By the Associated Press. WASHINGTON, Jan. 30.—Premier Mussolini cabled to Italian Ambassador de Martino today he had felt sure that he would obtain "just and prompt redress from the fairness, the loyalty and the friendship of the American Government and the American people whose respect for the truth is well known to me" after the incident in which Major-General Smedley D. Butler of the Marines made derogatory remarks about him.

Mussolini's Message.

The text was: "BOYS! TCHES, CASE YOU D'ELOPE! SAY LISTEN, FELLA'S, I WOULDNT EVEN LET MY IMAGINATION RUN AWAY WITH ME!"

Rome, Jan. 30, 1931, 2 p. m.

"His Excellency de Martino, Royal Italian Ambassador, Washington.

"I felt sure that I would obtain just and prompt redress from the fairness, the loyalty and the friendship of the American Government and the American people whose respect for the truth is well known to me."

"Will you please communicate to the Federal Government that I acknowledge the incident, which for my part, I have already forgotten."

"Meanwhile, a protest against the arrest of Butler for his criticism of Mussolini was made in the Senate by Senator Heflin (Dem., Ala.).

J. W. Davis May Head Defense.

The expectation that John W. Davis, New York lawyer and 1924 Democratic nominee for the presidency, would head the counsel for Gen. Butler during his court-martial was expressed today by friends of the Marine officer who have been studying the case.

Arrangements for counsel were discussed this morning in the office of Maj. Henry Leonard, U. S. M. C., retired, a Washington attorney and Butler. With Leonard were Lt. Col. J. J. Meade, Gen. Butler's chief of staff; Lt. Col. P. T. Anderson, Quartermaster of the Marine Post; Lt. Col. C. Berkley, acting commanding officer of the post.

The four men were closeted for nearly two hours.

Officers Who Will Try Butler.

Secretary of the Navy Adams approved a list of six Rear Admirals and one Major-General of the marines to constitute the court which will try Butler. Those selected are Rear Admiral De St. Etienne, president of the court and commandant of the third naval district at New York; Rear Admiral Phelps, commandant of the Portsmouth, N. H., navy yard; Rear Admiral Taylor, head of the war plane division, Navy Department; Rear Admirals Day and Blakely, both members of the Navy General Board; Read Admiral Clark, director of fleet training at the Navy Department, and Major-General John H. Corradino, U. S. M. C., retired of Corradino, Cal.

Capt. William C. Watts, chief of staff at the fourth naval district, Philadelphia, was named as Judge-Advocate of the court martial. His duties parallel those of a Prosecuting attorney in civil court.

Hoyle Gets Excited.

In the Senate, Heflin of Alabama said he was "getting tired of this howling to the monarchs of the Old World."

"Why should an American General bow down and crawl in the dust to the most red-handed tyrant on earth—Mussolini—the monarch of the Old World?" he asked.

He demanded that before Butler is disciplined an investigation should be made into the truth of the statement that Mussolini ran down a child and did not stop.

"It sounds exactly like Mussolini," he said.

He stood here three years ago and related stories of Italian Masons being murdered at the instance of Mussolini. There were 137 of them in one night, if I remember correctly."

"They were followed to the lodges and butchered and their bodies thrown out of the windows. The Grand Master of the Masons in Italy was sent to prison by Mussolini and put in a dark dungeon and kept there until his eyesight failed."

It was said at the White House today that President Hoover had taken no part in the development.

## "WATERED BREAD AT SANITARIUM"

Administration Urged to Take Some Steps to Correct Conditions Criticized Many Times in Past.

## FARMER FIGHTING PIPELINE COMPANY'S ENTRY YIELDS

Herman Fuchs Says, However, He Wants Pay for Damage to His Berry Patch.

All was quiet today on the pipeline front near Jefferson Barracks where landowners have been resisting efforts of the Phillips Petroleum Co. to cross their property with its gasoline pipe line from the Texas Panhandle.

Lengths of pipe were stretched across the berry patch of the Fuchs family on Ambs road, entered for the first time yesterday by construction workers while deputy sheriffs stood by with a machine gun and sawed-off shotgun to make sure that there was no interference. The pipe would have been underground today, but for the fact that the trenching machine was disabled.

Herman Fuchs, who has demanded that the company buy his right of way outright instead of leasing it, said today he would offer no further resistance if the company would agree to repay him for the damage done to his berry patch, in addition to the \$500 award granted him by condemnation commissioners for the use of his property.

Fuchs is one of 24 owners of property in the vicinity who have exceptions pending in Circuit Court at Clayton to the awards of the condemnation commissioners. The Phillips company had posted \$19,645 with the Circuit Clerk at Clayton to eliminate damages to these owners, and there are others who have successfully evaded service of condemnation suit notices.

Particular attention was called to the children's quarters at Koch Hospital, which are described as "poor and inadequate." "The children," said the report, "are housed in an old frame building with very poor facilities and are subjected to great heat in summer because of the thin construction."

"Contractors Water the Loaves."

Another specific complaint concerned the bread supply at the City Sanitarium. "The bread supply, 'contracted out,' the jury said, "reached the contractors, watering the loaves from time to time to get more weight. The result is that the bread is sometimes soggy and cannot be used. This trouble can be overcome by having the Supply Commissioner set out specifications with which the contractors would be obliged to comply and, failing to do so, the contract would be forfeited."

Commenting on five indictments resulting from motor vehicle accidents, the report said: "It is with utter disregard of rights of pedestrians and property rights of others. Every effort should be made to stamp out this evil."

The report was signed by Charles Rippin, foreman of the jury, which returned 17 true bills, six no true bills and examined 167 witnesses.

THREE WOMEN, GUIDE BURIED IN AVALANCHE IN THE ALPS

Two Other English Tourists and Their Aids Rescued; Bodies of Victims Not Found.

By the Associated Press. MEXICO CITY, Jan. 30.—Renewed earthquakes in Southern Mexico yesterday caused some damage, particularly in Oaxaca, where several buildings collapsed.

The tower of the temple at Tlaxiaco, Oaxaca, caved in. A girl was injured in the collapse of a building at Miahualan. Many houses were thrown down in Huatusco, Veracruz, where residents abandoned their homes and set up improvised tents in the open.

KORITZA, Albania, Jan. 30.—Earthquakes again shook this area today. Fifty houses were destroyed and two persons injured in surrounding villages.

TO MAKE JOURNEY ON DO-X

Giant Plane Due to Depart Tomorrow on Ocean Flight.

By the Associated Press. LISBON, Portugal, Jan. 30.—The DO-X, giant German seaplane, will take off at 7 a. m. tomorrow (3 a. m. St. Louis time), weather permitting, on the first leg of a trans-Atlantic flight to Rio de Janeiro. Its final test flights completed, the plane, which arrived here several weeks ago from Altenrhein, Switzerland, was pronounced ready for its long-delayed start across the ocean.

The first leg will be to Madeira. From there the plane will go to the Cape Verde Islands, the Canary Islands, across the open ocean to Natal, Brazil, and down the coast to Rio. Nineteen persons, of whom 12 are officers and crew, will make the journey.

ILLINOIS BANKER PLEADS GUILTY OF EMBEZZLEMENT

Sentencing of Fred E. Goodin, Benton, Deferred in U. S. Court.

In East St. Louis.

Fred E. Goodin, former assistant cashier of the First National Bank of Benton, Ill., pleaded guilty of embezzlement before Federal Judge Chapman at East St. Louis yesterday. The plea was deferred until Feb. 14.

He stood here three years ago and related stories of Italian Masons being murdered at the instance of Mussolini. There were 137 of them in one night, if I remember correctly."

"They were followed to the lodges and butchered and their bodies thrown out of the windows. The Grand Master of the Masons in Italy was sent to prison by Mussolini and put in a dark dungeon and kept there until his eyesight failed."

## MAN WHO GOT LIFE FOR CALL ON GIRL FREED IN 7 YEARS

Sentenced as Burglar in 1923—Paroled by North Carolina Governor.

By the Associated Press.

RALEIGH, N. C., Jan. 30.—Felix Wright, sentenced to life imprisonment as burglar in 1923, because he visited his sweetheart against her father's wishes, has been freed with his freedom by Gov. Gardner.

The parole papers read:

"The facts in this case are substantially as follows: This prisoner was in love with the daughter of the man whose home he entered. The father of the girl forbade the prisoner seeing his daughter and upon his visit to the house he had him arrested for trespass.

"Later the daughter wrote to the defendant to come to see her and he entered her room in the night and upon being apprehended by the father was arrested for burglary and sentenced to life imprisonment."

Overcrowded conditions in various city hospitals and institutions were criticized in the final report of the December term grand jury to Circuit Judge Green today, with an underscored paragraph to the effect that grand jury inspections and recommendations were a waste of time unless something was done to correct conditions pointed out.

This grand jury has noted that for a long time past, for many years, each succeeding grand jury has made its recommendations regarding certain institutions, the report said.

Angier, a laborer, jumped from a second floor window, aroused his brother on the first floor, ran up a burning stairway, dropped his one-year-old daughter from the window and was overcome as he tried to carry her with from their bedroom.

When firemen arrived at 5:40 a. m., flames were leaping from doors, windows and roof of the building, owned by the parents of Mrs. Sardo, Mr. and Mrs. Nicholas Filippone, who live in a house on the front of the lot. Property loss was estimated at \$2,600.

The brother, Serafino Sardo, said the fire apparently started in or near a gas range under a wooden stairway which led to the second floor. The kitchen seemed to be filled with flame, he said, when Vincenzo aroused him and darted through the fire to reach the second floor.

Serafino ran into the yard where he caught the baby, Rosalie, as she fell from the window, her sleeping garments in flames. He beat out the fire with his hands, suffering burns on the face, hands and arms. The child, seriously buried about the body, head and arms, was taken to City Hospital.

When firemen arrived, relatives demanded that they enter the burning building but Capt. Joseph Nuelle of the Fire Department, No. 35, decided against it, declaring the fire had advanced too far for anyone to be alive inside.

The bodies of Mr. and Mrs. Sardo were found in the debris which lay between the charred walls of the building. Mrs. Sardo wore a nightgown and her husband, in stocking feet, had pulled a sweater over his sleeping garments.

MOVES TO CUT OFF DIPLOMATS' FUNDS FOR TIPS AND FLOWERS

Senator Bratton Objects to Foreign Envoy's Allowance for Receptions.

By the Associated Press.

WASHINGTON, Jan. 30.—Protesting that the time was inappropriate for such expenditures, Senator Bratton (Dem.), New Mexico, proposed in the Senate today to eliminate an item of \$125,000 from the State Department appropriation bill for use by American diplomats.

Two Terrorists, Two Officers and Girl Victims: Alleged Leader of Band Seized.

By the Associated Press.

BUREAU OF INVESTIGATION, Jan. 30.—Two gangsters and a policeman were killed today when police raided what was thought to be a stronghold of a band of anarchist terrorists under the alleged leadership of Serverino di Giovanni, who was arrested last night. Another of the band was wounded.

In the debate that followed Senator McCellan (Dem.), Tennessee, said the administration thought "doles to foreigners were all right."

Senators Tydings (Dem.), Maryland, and Bingham (Rep.), Connecticut, opposed the elimination, saying poor men already were finding it too hard to enter the diplomatic service.

The raid followed a fight last night in which a 13-year-old girl and a policeman were killed.

TODAY'S NEWS: BULDINGS FALL IN OAXACA

New Shock in Albania Destroy 50 Houses and Injure Two Persons.

By the Associated Press.

MEXICO CITY, Jan. 30.—Renewed earthquakes in Southern Mexico yesterday caused some damage, particularly in Oaxaca, where several buildings collapsed.

The tower of the temple at Tlaxiaco, Oaxaca, caved in. A girl was injured in the collapse of a building at Miahualan. Many houses were thrown down in Huatusco, Veracruz, where residents abandoned their homes and set up improvised tents in the open.

TO REPRODUCE KENILWORTH CASTLE IN NEW YORK CITY

Metropolitan Museum of Art to Use Land Donated by John D. Rockefeller Jr.

By the Associated Press.

NEW YORK, Jan. 30.—The New York American says a full-sized reproduction of famous Kenilworth Castle is to be built as a branch of the Metropolitan Museum of Art on land donated by John D. Rockefeller Jr.

The original castle at Warwickshire, England, furnished the background for Sir Walter Scott's novel "Kenilworth." It was there that the Earl of Leicester gave a 19-day's entertainment for Queen Elizabeth.

The gift land is on a prominent overlooking the Hudson River and Palladian at Washington.

The first leg will be to Madeira.

From there the plane will go to the Cape Verde Islands, the Canary Islands, across the open ocean to Natal, Brazil, and down the coast to Rio. Nineteen persons, of whom 12 are officers and crew, will make the journey.

**CHARGES IMPROPER CONDUCT IN INDIAN OIL LAND LEASE**  
Senate Witness Supports Stopping of Pay of Commissioner Hagerman.

WASHINGTON, Jan. 30.—John Collier, secretary of the American Indian Defense Society, charged at a Senate Indian Committee hearing today that Herbert J. Hagerman, former Territorial Governor of New Mexico, was guilty of improper conduct in connection with Indian oil leases. Hagerman immediately denied the statement.

The Senate eliminated a provision from the Interior Department bill for a salary to Hagerman as a Special Commissioner to the Indian Bureau. The House has disagreed, and the Senate hearing precedes a conference between the two branches to reconcile differences.

Collier was the first witness called by Senator Frazer (Rep.) of North Dakota, Indian Committee chairman, whose charges caused the Senate to stop Hagerman's pay. Collier testified Hagerman was appointed by former Interior Secretary Fall, when Fall was "developing large designs against Indian oil lands." The witness said Hagerman had agreed, under Fall's regulations, to organize the Navajo Council which gave him authority to execute all leases for oil on the reservations. He said Hagerman, or Fall, or Indian Commissioner Burke "threw these properties on the market at public auction at a time of depression in valuation" and prices obtained were regarded as very low.

**OFFERS HOME AS RESIDENCE FOR VICE PRESIDENT OF U. S.**

Mrs. John B. Henderson, formerly of Missouri, is donor; Bill to be produced.

By the Associated Press.

WICHITA, Kan., Jan. 30.—As a permanent home for the Vice President, Mrs. John B. Henderson, formerly of Missouri, today offered to give the Government her home at 1515 Fifteenth street, N. W.

A bill to accept the gift is to be presented next week by Representative Gibson of Vermont. He will also ask appropriation of \$30,000 and \$25,000 a year for its upkeep. Mrs. Henderson, in her letter to Chairman of the House Building Committee, recalled that Calvin Coolidge, in his autobiography, called attention to the need of a permanent home for the Vice President.

## ROBBER WOUNDED, CAPTURED, AFTER HOLDUP OF BANK

George Davis, St. Louis, Arrested After \$4500 Is Stolen From First National of Gorham, Ill.

**POSSE HUNTS FOR HIS SUPPOSED AID**  
Family of Farmer Taken Into Custody Said to Admit Hearing Plans Laid for Attack on Depository.

Special to the Post-Dispatch.  
MURPHYSBORO, Ill., Jan. 30.—Solution of several recent robberies, including the holdup yesterday of the First National Bank of Gorham is hoped for by Jackson County officials, as the result of the wounding and capture of one man, who has been implicated in the Gorham robbery, and the arrest of two women and two men, all of whom are accused of supposing stolen goods, a sawed-off shotgun and a bullet-proof vest were found in a farm home near Gorham.

Meanwhile, a posse of Deputy Sheriff's and State highway patrolmen is searching the woods in the vicinity of Gorham and Mount Joy for another man who is said to have been the second participant in the bank robbery, and for between \$4500 and \$5000 taken from the bank, and thought to be hidden.

George Davis, 31 years old, formerly of Tennessee and more recently of St. Louis, was shot three times when he fled from members of a posse of Deputy Sheriff's and State highway patrolmen. Vincent Lee, on whose farm Davis was shot and the goods supposed to be stolen were found, his wife, his daughter, Emma, 19, and his brother, Herbert, are held in the county jail here for questioning. According to State's Attorney Fletcher Lewis, they have admitted that Davis and another man planned the bank robbery with the intent to turn it into a permanent home for the Vice President.

**Wyoming (III.) Bank Closed.**  
WYOMING, III., Jan. 30.—The Scott, Walters & Rakestraw Bank of Wyoming was closed by the State Auditor today for "examination and adjustment." It had \$75,000 capital stock.

## WADE SCHOOL ANNIVERSARY

Ceremonies in celebration of the first anniversary of the F. J. Wade School, 2030 South Vandeventer avenue, were held at the school last night, with John S. Leahy, attorney as principal speaker.

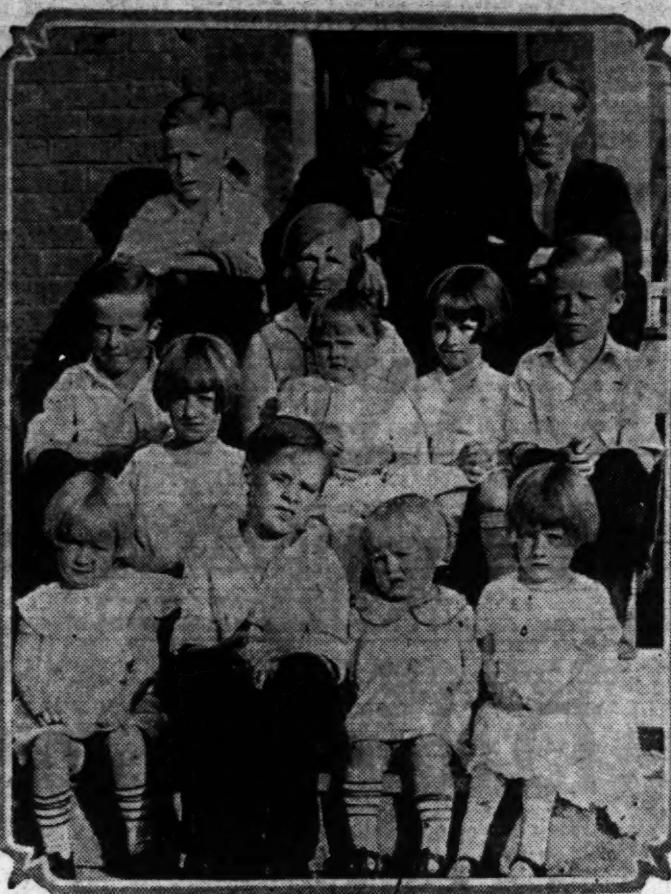

A radio was presented to the school by Festus J. Wade Jr. The school building was completed in February of last year at a cost of \$29,400. Its present attendance is 522 students, although it was built to accommodate 850.

Judge Grinnell to Lecture.

"Germany's Contribution to Mankind" in culture and material progress will be outlined by former Circuit Judge J. Hugo Grinnell at tonight's meeting of Missouri Historical Society at Jefferson Memorial. He will trace each of the group movements of liberty-loving Germans from the tyrannical principalities of last-century middle Europe, such as the influx of revolutionary "Forty-eighers" which contributed some of the most distinguished names in St. Louis history.

Third, Robinson said that the

**Mother of Twenty-Six Children Likely to Win Prize of \$500,000**

## BOARD DECIDES TO PAVE GRAVOIS FOR FULL WIDTH

**Plan for Parkways Eliminated at Request of Property Owners—To Use Ordinary Asphalt.**

The Board of Public Service decided today to pave widened Gravois avenue to its full width, eliminating center parkways which had been suggested for those sections where there are no double street car tracks. The decision is in accord with the general sentiment of property owners expressed at a public hearing Tuesday.

The board decided also to increase the city's share of the cost, to offset the additional expense and to pave the surface with ordinary asphalt instead of the expensive patented Warrenite.

Estimated cost of the plan as now approved is \$100,000, of which the city will pay from bond issue funds \$344,655. The project is divided into five sections, and the proportion of cost to be borne by the city will vary in each section.

From Twelfth and Calhoun streets to Eighteenth and Russell boulevard, where a new extension of Gravois avenue is being cut through, the city will pay 80 per cent of the cost of \$78,000; from Eighteenth street to Jefferson avenue, 45 per cent of \$174,900; from Jefferson to Arsenal street, 50 per cent of \$132,500; from Arsenal to Cherokee street, 60 per cent of \$154,400; and from Cherokee to Grand boulevard, 40 per cent of \$65,600.

The city's share of the cost is unusually heavy because of the great number of angular intersections to be created by widening the street from 60 to 100 feet.

The plan is predicated on the assumption that the Public Service will retain its tracks on Gravois avenue and pave between the rails. The company has pending before the Public Service Commission its application for permission to remove its tracks from some sections, and if this is granted the tracks in those sections will be increased.

Fourth, Robinson said that the other amendment added yesterday to the War Department bill, providing that \$5,000,000 out of the \$45,000,000 feed, seed and fertilizer appropriation may be used as capital stock for agricultural credit organizations, also was unanimously approved by the caucus.

Robinson said that this measure must be enacted without delay if it is to give the desired relief. Fifth, the conference approved a \$20,000,000 item for rural sanitation placed by the Senate in the deficiency bill. This item was approved by the conference as "a wise indispensable precaution against epidemics and diseases due to undernourishment and other conditions which threaten distressed communities."

"The opinion was unanimous," said Robinson in his statement, "that this sum, added to such funds as may be made available for distribution through charitable organizations, is essential to supplement the relief work now being carried on."

Robinson said there was no objection to modification of the amendment so as to name some other agency than the Red Cross to distribute the fund. The Red Cross, through a statement issued Wednesday by its chairman, John Barton Payne, declined to accept administration of the fund.

"Many of the Senators," continued Robinson, "indicated a preference for the Surgeon Army as a distributing agent."

"I see no objection to imposing the task on the Surgeon-General of the Public Health Service, the Secretary of Labor, the Secretary of Agriculture, or these three as a commission."

The robbers who held up the Gorham bank entered when the teller's cage was being measured for bullet-proof glass, and while he stood at the door with a shotgun and guarded the officers and customers, the second forced E. Schwartz, the cashier, to open the vault and cash drawer. The men fled in a green sedan, which was later found abandoned near here. Officers think the robbers left it and entered another car.

This is the \$15,000,000 food loan proposal which the President rejected in the early stages of the battle over relief measures.

"This provision," said Robinson, "had already several times been introduced in the Senate by overruling votes. It is to be noted that the General Assembly has under consideration a bill authorizing a bond issue to provide funds for the purchase of food."

The Senate proposal, he said, is paralyzing the Red Cross drive for the \$10,000,000 fund.

Representative Reed (Rep.), New York, argued to vote this money would raise the hand of the assassin against the greatest mother the world has ever known."

The statement was applauded from the Republican side.

Representative Rainey (Dem.), New York, attacked the statement of Chairman Payne of the Red Cross that the \$10,000,000 fund to be raised by contributions was going to be used exclusively in the drouth area.

Chairman Wood of the House Appropriations Committee declared Payne had testified that where cities did not have their own relief organizations, the Red Cross went and gave succor to those in distress.

Wood said cities were able and amply organized to take care of this distress and country districts were the ones in need.

Wood gave credit to Arkansas and Oklahoma for taking steps to appropriate funds to take care of their distressed.

The Senate proposal, he said, is

paralyzing the Red Cross drive for the \$10,000,000 fund.

Representative Reed (Rep.), New York, argued "to vote this money would raise the hand of the assassin against the greatest mother the world has ever known."

The statement was applauded from the Republican side.

Representative Rainey (Dem.), New York, denied the supporters of this relief fund are assassins of the Red Cross.

Representative Oscar De Priest of Illinois, lone Negro member,

**\$100,000 A YEAR GIVEN TO THE AGED BY ALFRED DU PONT**  
His Pension Plan, Benefiting 1000 Persons, Adopted by Delaware.

WILMINGTON, Del., Jan. 30.—Alfred du Pont, a member of the famous du Pont Powder Co. family and a former vice president of that corporation, was the originator of the old age pension in Delaware which has just been approved by the Governor. Since November, 1929, after an old age pension bill was defeated, he has paid about \$100,000 a year to aged persons.

A list of the persons to whom his pension checks are paid has the names of 1000 persons, each of whom receives a pension ranging from \$5 to \$25 each month according to the needs of the individual. All are more than 65 years old.

The maximum to be paid to any one pensioner under the new law is \$20 to \$25 a month, the exact amount of each pension to be fixed by the pension department upon careful investigation of the needs of the applicant. These names were obtained by du Pont's organization throughout the State. Each pension may range from \$5 to \$25 a month, according to the discretion of the department.

**CONTRIBUTIONS TO RED CROSS IN ST. LOUIS TOTAL \$95,840**

St. Louis contributions to the Red Cross fund for relief in 21 drouth-stricken states—including Missouri and reaching within 20 miles of St. Louis—were expected to total \$100,000 Sunday, with total contributions rising to \$95,840 today.

The St. Louis quota is \$20,000. Although the total has risen at the rate of only a few thousand a day since the campaign began Jan. 13, it has included hundreds of gifts of \$1 up from persons in moderate circumstances and has exceeded the previous record throughout the nation.

Contributions are being sent to Oliver F. Richards, Red Cross Treasurer, Mercantile—Commerce and Bank and Trust Co., Eighth and Locust streets.

Sharing in contributions to the drouth relief fund means saving a child just as much as would a spectacular rescue, Bert H. Lang, chairman of the Citizens' Committee, said in an appeal to prompt aid.

"There is not a red-blooded St. Louisan who wouldn't risk his life to save a child from a burning building," said Lang. "This little child, multiplied 10,000-fold, is standing right now on the verge of starvation in the drouth areas and saving much for your help. No heroes are necessary, no risk of life or limb, just a bit of the money with which we have been blessed. Will we answer the call?"

Contributions are to be sent to the Red Cross, 1818 Locust street, St. Louis.

Contributions are to be sent to the Red Cross, 1818 Locust street, St. Louis.

Sharing in contributions to the drouth relief fund means saving a child just as much as would a spectacular rescue, Bert H. Lang, chairman of the Citizens' Committee, said in an appeal to prompt aid.

"There is not a red-blooded St. Louisan who wouldn't risk his life to save a child from a burning building," said Lang. "This little child, multiplied 10,000-fold, is standing right now on the verge of starvation in the drouth areas and saving much for your help. No heroes are necessary, no risk of life or limb, just a bit of the money with which we have been blessed. Will we answer the call?"

GETS TEN YEARS FOR \$1300.  
HOLDUP OF JEWELRY STORE

Andrew Wolf Pleads Guilty; Edgar  
MacKay Accused in Same Case  
WILL STAND TRIAL.

Andrew Wolf, caught by Probationary Patrolman Mitchell last Dec. 6, as he ran from the jewelry store of Melbourne Woltman, 5003 Union boulevard, with \$150 and jewelry valued at \$1239, was sentenced today by Circuit Judge Green to 10 years in the penitentiary for robbery with a deadly weapon. He pleaded guilty. Edgar MacKay, arrested with Wolf, pleaded not guilty and will be tried later.

Wolf pleaded guilty also of entering the home of William E. Beuer, 5552 Powers avenue last May and received a 10-year sentence to run concurrently. He was frightened away from the Beuer home as he was attempting to open a safe.

BAUME BENGUE (pronounced Ben-Gay) contains special ingredients that bring quick relief to the sharp, stinging pain of neuritis. Applied freely where the pain is most severe, it relieves congestion by stimulating a flow of fresh blood, while its pain-relieving properties soothe the irritated nerves.

## 20 HURT WHEN POLICE FIRE AT BUCHAREST DEMONSTRATORS

Railway Clerks and Others Protesting Against Reductions in Wages.

By the Associated Press.

BUCHAREST, Jan. 30.—Twenty demonstrators were reported wounded last night as police fired on railway clerks and other employees who were protesting against wage reductions.

The rail workers held a stormy protest meeting and then began marching up the main street on which the royal palace is situated. Near the National Theater mounted and foot police attempted to disperse the mob into side streets, but the marchers rushed the gendarmes and the latter fired several volleys into the throng. In addition to those injured by bullets, many others were hurt by the clubs of police. Seventy persons were arrested and quiet was restored after several hours of excitement.

A meeting called by the railway men for Sunday was forbidden after the trouble.

## QUICK RELIEF FROM ITCHING

Followed use of Resinol "For years I had a breaking out on the back of my hand. I tried various salves and ointments, and had several X-Ray treatments, but nothing seemed to heal the disease. One day when my hand was itching unusually badly, my wife bought me a jar of Resinol Ointment which I used and obtained instant relief. I do not hesitate to recommend Resinol to anyone." (Signed) Owen E. Bennett, Santa Ana, Cal.

The quickness with which Resinol acts in relieving eczema, chafing, rashes, sores, etc. is amazing. Why don't you try it? Use Resinol and you will find your complexion always clear and smooth. At all drugstores. Sample free. Write Resinol, Department 66, Baltimore, Md.

Well, you're going to again... for Spring's smartest silhouette is the Watteau... inspired by the picturesquesque Hats that celebrated Frenchman painted on the beauties of Louis XIV's court. Romantic and flattering... with coquettish flowers, ostrich banked under the brim against your curls, Nugents, Second Floor—Also Uptown and Wellston Stores

### EPISCOPALIAN WOMEN OF MISSOURI CONVENE

Bishop Spencer Addresses Them  
Following Close of Diocesan Meeting.

do to help? I have heard a great deal about prayer for the destitute. I have received numerous prayers with the request that they be used. But isn't something in order now in addition to prayer, or even sympathy? The words keep ringing in my ears. 'If a brother be naked and destitute of daily food, and one of you say unto them, Depart in peace, be ye warmed and filled,' notwithstanding ye give them not those things which are needful to the body: what doth it profit?"

"I am wondering whether we may not in some cases use our parish houses, and perhaps our churches, to provide shelter for our fellowmen who are in such pitiable condition, frequently through no fault of their own."

Deputies, and alternates, to represent the diocese at the triennial general convention of the church in Denver, next September, were elected as follows:

Deputies, the Rev. Dr. Karl Morgan Stock, the Rev. F. E. Bley, the Rev. John C. Bunting, the Rev. D. R. Clarke, James M. Bull, George W. Black, James M. Gruett and Ethan Shiple; alternates, the Rev. Dr. E. S. Travers, the Rev. W. S. Hohenchild, the Rev. H. N. Tragett of Rolla, the Rev. L. H. Nugent, A. B. Ridington, E. A. Logan of Columbia, A. J. Walling and Elias S. Gatch.

16 Held in \$3,000,000 Fire.

By the Associated Press.  
PANAMA CITY, Jan. 30.—Colombian authorities are reported to have arrested 16 persons in connection with the \$5,000,000 fire this week which destroyed the business section of Buenaventura. An attempt to start a fire Jan. 21 was frustrated. This led to the arrest of the persons now held.

BIGGEST BARG

CHILD AT PLAY FINDS BODY OF SLAIN GANGSTER IN AUTO  
Chicago Police Think Victim May Have Been Wounded in \$10,000 Store Holdup.

CHICAGO, Jan. 30.—A 10-year-old girl playing last night near an automobile that had stood in Lincoln avenue for two days, discovered in the rear of the car the body of a man shot to death. The police advanced the theory that he might have been one of the robbers shot and wounded last Monday when the

Webboldt department store was held up and robbed of \$10,000. The dead man was identified through fingerprints as George Smith, who served six months for burglary in 1916, and resembled one of the five men who invaded the Webboldt establishment. Belief was expressed that a can of alcohol found in the car was left to divert suspicion from the Webboldt robbery and leave the impression an alcohol war was the motive for the killing.

Dozens of passersby had noticed the parked a automobile, but no par-

## BOY, 8, KILLED BY AUTO ON ST. CHARLES ROAD

Henry Glover Run Down When Walking With Grandmother—Driver Surrenders.

Henry, 8-year-old son of Mr. and Mrs. Joseph Glover, 8319 St. Charles Rock road, was killed Thursday night when struck by an automobile while walking on St. Charles Rock road near his home. Death was caused by a fractured skull.

The boy, accompanied by his grandmother, Mrs. Catherine Schumacher, was walking east on the south side of the road at 8 o'clock when struck by a machine driven in the same direction by Paul Jones, 19, a farm hand of Ramona Park. Mrs. Schumacher was not injured.

Jones took the boy to a physician's office, then surrendered to county officers. He said he failed to see the child until it was too late to avoid striking him.

## LIFE SPAN OF WOMEN EXCEEDS THAT OF MEN IN ILLINOIS

State Public Health Director Reports Average for Former is 57.8 Years, for Latter 55.2.

By the Associated Press.

SPRINGFIELD, Ill., Jan. 30.—

The average life span of women in Illinois exceeds that of the men by two years and a half, Dr. Andy Hall, State Director of Public Health, has announced.

The fact that women, who care for the children, study hygiene, diet, sanitation and all other phases of health improvement and disease prevention contributes to their longevity, Dr. Hall said.

"The average life span in Illinois," Dr. Hall stated, "is 55.2 years for males and 57.8 years for females."

By studying and following sound scientific advice, he said, men also

could extend their days on earth for two years or more.

Fortifying Mexican Highways.

MEXICO CITY, Jan. 30.—The Government today commissioned the National Highway Commission to build blockhouses at regular intervals along roads for the protection of travelers. The War Department will assign troops to the blockhouses. The measure is intended to inspire confidence in travelers and increase tourist

travel. The Government hopes to Laredo to Mexico City completed have a provisional highway from by Easter.

## NEW PLOT EXPOSED IN PERU

U. S. CIRCUIT COURT ENJOINS  
I. C. C. ORDER TO BUILD LINEHolds Commission Exceeded Au-  
thority in Direction to the

Union Pacific.

By W. A. Scott, Times Staff Writer

LIMA, Peru, Jan. 30.—The news-

paper *Mediobio* reports that a rev-

olutionary plot to restore Augusto

B. Leguia, deposed as President in

a revolution last summer, has been

thwarted by the Government.

As the paper describes it, the

plot was engineered by Alberto

Salomon, Foreign Minister under

Leguia, and Alfredo Piedra, a rela-

tive of the former President.

Commerce Commission had ex-  
ceeded its authority in ordering the  
Oregon-Washington Railroad  
and Navigation Co., subsidiary of  
the Union Pacific, to construct the  
186 miles of road from the heart  
of Eastern Oregon westward.

## AMERICAN SOVIET RAIL AID

BALTIMORE, Md., Jan. 30.—

Charles A. Gill, superintendent of

motive power, Eastern lines of the

Baltimore &amp; Ohio Railroad, will

arrive Feb. 10 for Moscow, where he

will be chief consultant engineer

for railway systems of Russia, it is

announced.

He will be called on to advise in

the expenditure of \$1,700,000,000.

The budget for the Russian rail-

roads, the largest under direct

control, for the year 1931. The

system employs 1,046,054 persons,

not including seasonal labor.

### A Logical Conclusion

Your want ad should be printed in the Post-Dispatch because the Post-Dispatch is read in far more homes in every district in St. Louis, daily or Sunday, than any other newspaper. Call MAin 1111—for an adtaker and have your wants filled

### FRISCO TO NOT IN EFFECT

#### 2 CENTS A MILE COACH FARE

L. C. G. Refuses to Suspend Rate  
Despite Objects of Other  
Railroads.

The new coach fare rate of 2

cents a mile over the Frisco Railroad will go into effect Sunday, despite the protests against it by several southwestern railroads to the Interstate Commerce Commission, which has refused to suspend the proposed rate. Word of the refusal

was received here yesterday by legal representatives of the railroads.

The lower fare, as contrasted to 1.6 cents a mile now in effect, will prevail over the entire Frisco system of 8000 miles. It does not apply to Pullman car travel.

### WANAMAKER ESTATE UPHELD IN \$10,000,000 TAX RULING

Circuit Court of Appeals Decision  
on Transfer of Money to Son  
Before Merchant's Death.

By the Associated Press.

PHILADELPHIA, Jan. 28.—The Federal Circuit Court of Appeals today upheld the ruling of the United States Board of Tax Appeals that the estate of the late John Wanamaker does not have to pay a Federal inheritance tax of \$10,000,000 on the \$40,000,000 Wanamaker turned over to his son two years before his death.

The Government contended that Wanamaker transferred most of his estate to his son, Rodman, in contemplation of death and that an inheritance tax was thus collectible. It is expected the case will be taken to the Supreme Court.

When the case was argued two weeks ago, motion pictures were shown of Wanamaker to prove that he was active and vigorous and not thinking of death at the time he turned over the estate to his son.

Closed Bank's Cashier Kills Self

By the Associated Press.

REEDS LANDING, Jan. 28.—W. R. Rae, 49 years old, cashier of the closed Bolivar County Bank, shot and killed himself in the yard at his home here today. The bank closed Dec. 26. The receiver said that so far as he could ascertain, Rae's accounts were in order.

Ship Wrecked; 18 Unreported

By the Associated Press.

OSLO, Norway, Jan. 28.—Discovery of wreckage of the Norwegian steamer Uly along the northeast coast of Iceland has given rise to fears that the vessel

foundered with its crew of 15

men.

### BOTTLEGER IS CONVICTED ON SON-IN-LAW'S TESTIMONY

East St. Louis and His Son Are  
Found Guilty of  
Conspiracy.

A son-in-law testified today

against John Zitta, 1105 Lake Avenue, and he and his son, Slava Zitta, were convicted of conspiracy to violate the prohibition act by a jury in Federal Judge Wham's court at St. Louis.

Philip Yednokovich, who married John Zitta's daughter last January, testified he lived with his father-in-law who put him in business in a barbecue stand and insisted that he sell whisky. When prohibition agents raided the place, he told them the whisky belonged to his father-in-law and led them to a grocery owned by John Zitta, but operated by his son at 235 Winfield Avenue, where liquor also was found. He said that the father-in-law interfered in his family affairs.

Wives of the father and son were found not guilty. No charge was placed against Yednokovich. Sentence was deferred pending application for a new trial.

Bank Lied, Gas Kills Boarder

By the Associated Press.

KINGSTON, N. Y., Jan. 28.—Despite precautions taken by Adelbert Fish, 29 years old, in arranging to commit suicide last night, Frank Schermerhorn, 20, a boarder in the Fish home, fell victim to the illuminating gas Fish used to take his own life. Schermerhorn had retired. Fish plugged up the keyhole of Schermerhorn's bedroom door and stuffed the crack under it to keep the gas out. Then he turned on a jet in the outer room. Police passing the house today smelled the gas, broke in, and found both bodies.

### CITY ART MUSEUM AT WHITE HOUSE RECEPTION

Negro Accompanied by Wife at Function Given for All Representatives.

WASHINGTON, Jan. 30.—Oscar de Priest, Negro, representative from Illinois, and Mrs. de Priest, last night attended President Hoover's annual reception to members of the House. They took a place about midway of the line waiting to receive Mr. and Mrs. Hoover's greetings, shook hands with the President and the First Lady, and

Household appliances not in use are sold through the Post-Dispatch Classified For Sale Column. Call MAIN 1111 for an ad-taker.

then repaired to the East Room distinctions were being or would be made.

There Speaker Longworth approached and shook hands with them.

Mrs. Longworth, the former Alice Roosevelt, did not attend the reception, one of the regular series given for Government officials and diplomats.

Wide publicity was given shortly after Mr. Hoover entered the White House to Mrs. de Priest's attendance at a tea given by Mrs. Hoover. At that time the White House said it was one of several of such affairs to which all wives of members of Congress were invited and that no

danger.

Lloyd Baby, 2 Pounds, 14 Ounces.

By LOIS ANGELUS, Post-Dispatch

LOS ANGELES, Cal., Jan. 20.—

Harold Lloyd Jr., infant son of the movie comedian and Mrs. Mildred Davis Lloyd, weighed yesterday for the first time in his life, tipped the scale at 2 pounds, 14 ounces. Physicians said the infant, born prematurely six days ago, had lost a little weight since birth, but the loss was common among incubator babies. They said it would be several days before the child was out of danger.

**RETAIL PRICE FIXING**  
**BILL PASSED BY HOUSE**

Capper-Kelly Measure Legalizes Contracts on Trade-Mark Products.

By the Associated Press.  
WASHINGTON, Jan. 30.—The House has written another chapter in the long history of retail price-fixing legislation by passing the Capper-Kelly bill to legalize such contracts between producers and dealers on trade-marked products.

Amid greater activity and interest than has marked any previous meeting of the short session, a crowded chamber yesterday brought a close to six hours of debate constantly punctuated with cries of "vote" and sent the bill to the Senate loaded with amendments.

There was no record vote on passage but a joint plea by Chairman Parker and Representative Rayburn, Texas, ranking Democrat, to return the measure to the Commerce Committee was rejected, 210 to 147.

A flood of amendments, including such subjects as "unemployment apples" if same are worn during periods of depression," led Rayburn to describe the proceedings as "a farce and a fraud."

"No one can tell,"

"No one can tell now what the effect of the bill will be," said the Texan.

Representative Kelly, Pennsylvania, its Republican sponsor said off the floor he would endeavor to have the bill perfected in the Senate.

On one occasion a motion by Representative Huddleston (Dem.), Alabama, to kill the bill by striking out the enacting clause was lost by the narrow margin of 133 to 111.

The bill brought before the House permitted a contract between the producer of a trade-marked article and the purchaser which would fix a price for resale of the product and at the same time guard the rights of all retailers in a community. Before passage, a group of amendments designed to protect the retailer against frozen stocks were adopted.

One by Representative Cox (Dem.), Georgia, would permit the retailer to sell at his own price after giving the vendor opportunity to repurchase his products. Another by Representative Port (Rep.), New Jersey, would permit the retailer to abrogate the price contract if in financial difficulty.

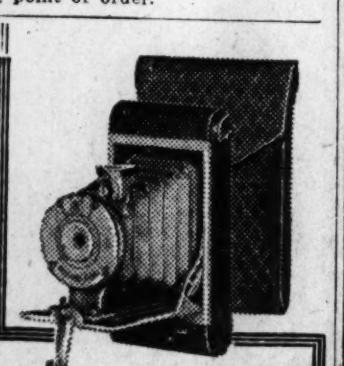

Some Other Amendments.

A third by Representative Burtness (Rep.), North Dakota, would permit him to sell below the stipulated price but not less than 20 per cent over the purchase price.

An amendment by Representative McSwain (Dem.), South Carolina, adopted 140 to 94, exempted from application of the bill "necessities of life" like flour and flour products, agricultural implements, tools of trade, canned fruits and vegetables, all clothing, shoes and hats."

On motion of Representative Eaton (Rep.), Colorado, the House restored a paragraph stricken out of the original bill in committee to authorize carrying the producer's price-fixing contract through to the second purchaser for resale. To this was added the requirement that this price be printed on the commodity.

An effort to allow the Federal Trade Commission to fix prices on resale contracts was ruled out on a point of order.

## MISSOURI PUBLIC SERVICE BOARD'S WORK EXPANDED

Increased Appropriation in Last Two Years Results in Enlarging Force From 8 to 70 Employees.

### FUND OF \$750,000 IS RECOMMENDED

With Greater Budget in Next Period, Commission Would Inquire Into All Important Utilities.

By a Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Jan. 29.—A marked expansion of the work of the State Public Service Commission was made possible by the increase of its expenditures for valuation and appraisal of public utility properties authorized by the Legislature two years ago, according to the report sent to Gov. Caulfield today by Milton R. Stahl, chairman of the Commission.

The report covers the biennium from Nov. 30, 1928, to Nov. 30, 1930.

Appraisals and audits now in progress to determine fair rates are greater than ever before in the history of the Commission, the report states, adding: "It is the purpose of the Commission to make valuations of all the important utility properties in the State and it is hoped that the Fifty-sixth General Assembly (now in session) will increase our appropriation out of funds earned to enable us to do this."

#### Utilities Involved Pay Cost.

Under the law the cost of valuation is collected from the utilities involved by the Commission and does not come out of general revenue. It is necessary, however, for the Legislature to make an appropriation and the amount so collected and expended in a two-year period may not exceed the amount of the appropriation.

Until two years ago this appropriation had been limited to about \$50,000. It was then increased to \$50,000 and for the next two years the State Tax Commission has recommended an authorization of \$750,000.

The number of formal cases filed with the Commission in the period covered by the report was 119, of which 1038 were disposed of, leaving 121 pending. In addition to these, the Commission received 345 complaints which were handled as informal cases and 278 of these were disposed of.

In the period the Commission expended \$15,371.02 for valuations and audits for use in determining fair rates of utilities. This money was collected as fees from the utilities concerned. During the first six months of the period the increased authorization was not available. Since then, however, the Commission has been carrying on this work at the maximum rate allowed by law, collecting and expending for valuations and appraisals a little more than \$20,000 a month, or \$500,000 in two years.

Expenditures for these purposes in the preceding two-year period were only \$67,218.59, although the Legislature had authorized up to \$100,000.

#### Large Increase in Personnel.

With the additional appropriation the Commission has increased its engineering department from seven engineers and one stenographer to a force of 70 engineers, clerks and stenographers, under Chief Engineer Plake. One assistant engineer and one clerk, who also acts as stenographer, are assigned to the Chief Engineer's office in Jefferson City, and all others are used in investigations and appraisals of utility properties throughout the State.

Properties appraised by the Engineering Department had a total value of about \$65,000,000. These included the Jefferson City gas and electric power plant, the Missouri Power and Light Co., Unicorps telephone exchange, Palmyra telephone exchange, Brunswick telephone exchange, Springfield Telephone Co., Kansas City Public Service Co., Middle States Utilities Co., Empire District Electric Co. and subsidiaries serving Joplin and 70 other cities, and East Missouri Power Co., serving Troy and 33 other cities.

#### Appraisals Now Under Way.

Appraisals of five electric utilities affecting 225 communities are under way. These are Missouri Power and Light Co., Missouri South Public Service Co., Missouri General Utilities Co., Missouri Edison Co. and Missouri Electric Power Co.

Chairman Stahl, who took office May 29, 1929, on appointment of Gov. Caulfield, said that if the Commission is given authority to collect and expend fees in the next two years to the amount of \$750,000, as has been recommended by the State Tax Commission, it will be able to

## SOVIET DECREES ON FORCED LABOR BARED BY BRITAIN

Orders Authorize Use of Compulsion in Lumber Industry and Agriculture—Penalty Imposed for Production of Inferior Goods.

Special Cable to Post-Dispatch and New York World.

Copyright 1931 by the Press and Publishing Publications of the New York World

LONDON, Jan. 30.—The text of various Soviet Government decrees regulating labor in Russia, published in an official British Blue Book here today, indicate the use of forced labor under the direction and authority of the Moscow Government in both the grain and lumber industries.

One section of the Blue Book deals with penal labor camps to which only persons who have been sentenced by the court to deprivation of liberty for not less than three years and persons sentenced by physical decision of the unified state political department can be sent. These camps are under "general control" of the political department.

Part III of the book, headed "Special Legislation," gives a number of rules for "forced labor." A Government decree dated Sept. 12, 1930, ordered: "In view of the irregularity in supply of workers for loading and unloading operations on procedure for the utilization of forced labor on forestry and improvement work" says, under the heading "General Instructions":

"Present instructions are, first, to attempt to utilize on timber and improvement work the labor of persons sentenced to forced labor without detention under guard.

Considering this experiment of exceptionally great importance the People's Commissariat of Agriculture instructs all agricultural organizations to begin forthwith from the current season to explore all existing possibilities of utilizing the labor of persons sentenced to forced labor for forestry and improvement work of mass character and to establish for this purpose permanent relations with the bureau of forced labor."

#### Hauling of Grain.

Another decree authorized the use of grain areas of "compulsory cartage of grain against payment of wages" for the use of grain in the loading stages from July 1 to Sept. 15, 1929.

There is also a decree authorizing local executive committees to "enforce temporary compulsory labor in carrying out the loading and unloading of grain cargoes up to Feb. 1, 1930."

Another decree, after commenting on the falling-off in production

of goods said in part: "The Central Executive Committee and the council of Peoples' commissars therefore decrees, as a penalty for systematic or mass production of inferior goods by industrial or commercial enterprises, deprivation of liberty for not more than five years or forced labor for not more than one year, and second, as a penalty for failure to observe standards laid down, deprivation of liberty for not more than two years or forced labor for not more than one year."

Further on in the same decree it is set forth that executive committees are "empowered, where it is found that all other means of providing an adequate supply of labor or means of haulage have been exhausted, to institute compulsory paid labor or haulage in order to fulfill the needs of timber preparation and transport."

Decree for Labor Shortage.

A Government decree dated Sept. 12, 1930, ordered: "In view of the irregularity in supply of workers for loading and unloading operations on procedure for the utilization of forced labor on forestry and improvement work" says, under the heading "General Instructions":

"Present instructions are, first, to attempt to utilize on timber and improvement work the labor of persons sentenced to forced labor without detention under guard.

Considering this experiment of exceptionally great importance the People's Commissariat of Agriculture instructs all agricultural organizations to begin forthwith from the current season to explore all existing possibilities of utilizing the labor of persons sentenced to forced labor for forestry and improvement work of mass character and to establish for this purpose permanent relations with the bureau of forced labor."

#### Commenting on the Russian decrees, quoted in the Blue Book, the London Times says:

"One thing, at any rate, appears plain enough. If Russia with the help of foreign credits and foreign engineers and other technical experts is able to go on industrializing herself at her present pace, other countries will only be able to compete by organizing their production and commerce on something like the scale on which Russia is organizing hers."

"That is to say, they must regimen and exploit their labor with the same ruthless thoroughness and precision that standard of living to approach the Russian level. With any capacity for organization—and the Russian Government has shown remarkable capacity in that respect—it is bound to become a formidable competitor in almost every branch of production."

## 28 BRITISH COAL MINERS ARE KILLED IN EXPLOSION

25 Rescued, 12 in Serious Condition, From Deep Haig Pit at Whitewhaven.

By the Associated Press.

WHITEHAVEN, Cumberland, Eng., Jan. 30.—Twenty-eight coal miners are known to have been killed in an explosion which buried them in the deep Haig pit yesterday. Sixteen bodies had been recovered at noon. All the others had been located and were being brought out alive. Twelve of them are in serious condition in a hospital. The mine owners said a number of men caught on the fringe of the gas-filled passage and rescued some of the injured. But for them the death toll would have been larger.

The cause of the accident has not been determined. The Haig pit is a deep mine with workings running six miles beneath the sea.

#### Comparisons Since 1913.

The report contains tables and charts showing comparisons of average electric light rates by years from 1913, when the Commission was established, to 1930, and according to population of cities.

New rate schedules filed in the two-year period resulted in the following reductions, the report states:

"Undoubtedly some rural communities are suffering from inadequate service which could be remedied by expert advice. These conditions ordinarily do not reach the Commission until they have passed to an intolerable state. If we had inspectors these conditions could be corrected more speedily and at less expense, and the general standards of utility service could be raised. . . . These inspectors could see that rate schedules on file with the Commission are being observed and that the orders of the Commission are being obeyed."

#### Comparisons Since 1913.

The report contains tables and charts showing comparisons of average electric light rates by years from 1913, when the Commission was established, to 1930, and according to population of cities.

New rate schedules filed in the two-year period resulted in the following reductions, the report states:

"Electric, \$1,597,210; gas, \$624,550; water, \$109,500."

Gas rates at St. Louis were increased approximately \$600,000 and water rates in Springfield were increased about \$70,000.

Other members of the Commission as now constituted, besides Chairman Stahl, are Commissioners Almon Ing, Poplar Bluff; J. H. Porter, St. Louis; S. M. Hutchinson, Kansas City, and J. Fred Hull, Maryville.

David P. Janes of Moerby is secretary, and D. D. McDonald of Lebanon is general counsel.

#### KILLINGS IN GOVERNOR'S HOME

Mexican Slays Fellow Jurist and Policeman; Is Shot Dead.

By the Associated Press.

MAZATLÁN, Sinaloa, Mexico, Jan. 30.—After Gen. Pedro Gaxiola, Governor of Sinaloa, retired last night, a guest in his home, Leopoldo Barragan, arose and shot and killed another guest, Manuel Mejia, and then pistol-whipped him, tried to break into the Governor's room and the door was locked.

Police were called but Barragan and his killer, one of them and wounded another before dashing out of the house. The officers shot him dead after a chase of several blocks. Barragan had come to Mazatlan to complain of alleged political persecution in his home town, Angostura, and the Governor took him to his house as a guest. The Governor said he thought Barragan was demented.

#### Appraisals Now Under Way.

Appraisals of five electric utilities affecting 225 communities are under way. These are Missouri Power and Light Co., Missouri South Public Service Co., Missouri General Utilities Co., Missouri Edison Co. and Missouri Electric Power Co.

Chairman Stahl, who took office May 29, 1929, on appointment of Gov. Caulfield, said that if the Commission is given authority to collect and expend fees in the next two years to the amount of \$750,000, as has been recommended by the State Tax Commission, it will be able to

## CHURCHILL BREAKS WITH BALDWIN ON INDIAN AUTONOMY

Notifies Ex-Premier That Because of Disagreement He Will Not Attend Tory Committee Meetings.

## NEW CONSERVATIVE FACTION LIKELY

Other Leaders Oppose Former Prime Minister's Friendly Attitude Towards Round Table Plan.

By the Associated Press.

LONDON, Jan. 30.—Birth of a new faction within the ranks of the Conservative party was regarded today as the probable result of a disagreement on Indian policy between former Premier Baldwin and Winston Churchill.

Baldwin, in a recent speech, promised Tory support to the policy of autonomy for India.

From correspondence between the two Conservative leaders just published it appears that Churchill, while his "warm, personal friendship" for Baldwin is undiminished, thinks it best that he abstain from meetings of the party's business committee, or war council, which includes former Cabinet Ministers.

Baldwin, while equally warm in his personal remarks, accepts Churchill's view that he should cease attending the committee meetings.

#### Other Leaders With Churchill.

Churchill is not alone in dissenting from Baldwin on the Indian issue. Lord Lloyd, former High Commissioner of Egypt, will start tonight in Manchester on a barnstorming tour of the Indian round table conference and its works.

Paul Springman, the Beaverbrook candidate in East Islington, is making Baldwin's alleged "surrender to the Socialists" on the Indian platform a prominent plank in his campaign. Churchill will make a speech for a Conservative candidate in East Islington who is not particularly attached to his party toward India.

"A new fact, if it is born," the Liberal News Chronicle says, "need not confine itself to policy of treating India rough. What about free trade? Mr. Churchill's real views on this subject are well known and they are certainly not those of Mr. Stanley Baldwin."

In writing to his leader, Churchill made it clear that he would continue to support him in opposing the "Socialist Government."

#### Trouble in Labor Ranks.

With development of the factional differences in the Conservative ranks new troubles appeared on the Labor horizon. The News Chronicle says the Left Wing group of the Labor party decided last night to oppose the alternative vote proposal of the Government's electoral reform bill.

Their decision may make it difficult for the Government to carry the measure through the House, as the Conservatives already have given warning of an organized attack on the bill, debate on which will be resumed Monday. It is upon the bill that new Liberal Labor alliance is supposed to depend, since it is designed to correct disproportionate representation in Parliament and has general Liberal support.

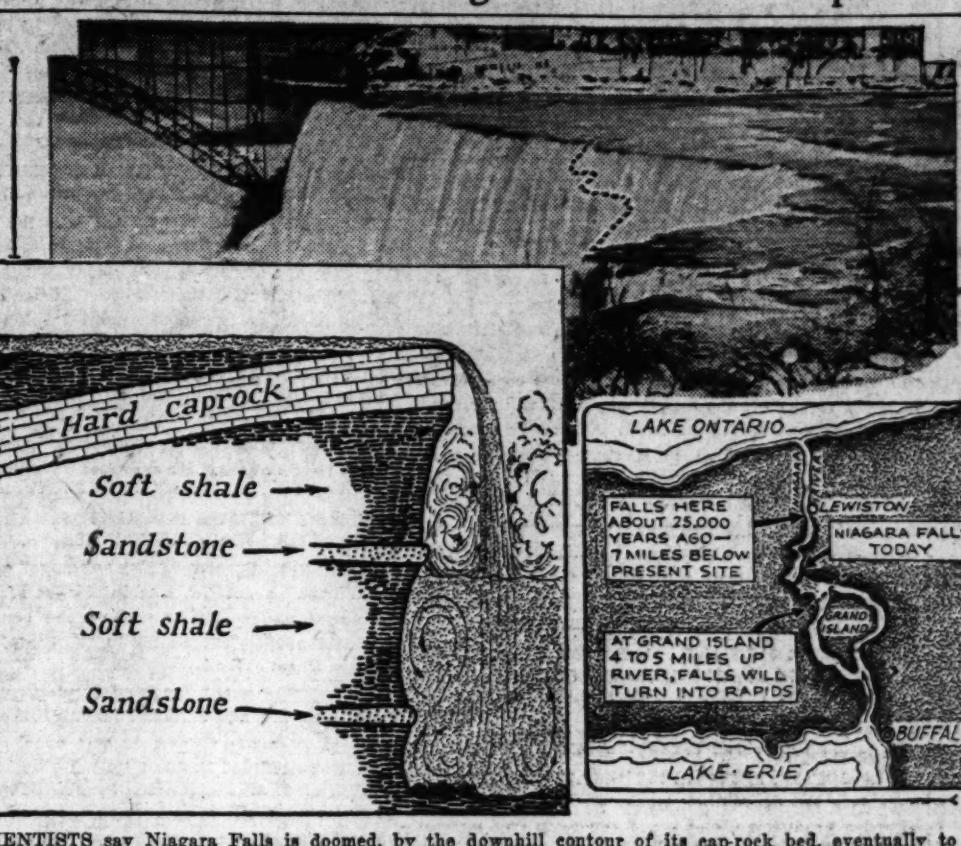

#### TORTURE BY CHINESE PIRATES

Brigands Pour Hot Oil in Ears of Captives, Then Hang Them.

By the Associated Press.

SHANGHAI, Jan. 30.—Japanese newspapers reported today Yangtze River pirates, pursued by a Government patrol poured hot oil into

## Why Scientists Think Niagara Will Become a Rapids

SCIENTISTS say Niagara Falls is doomed, by the downhill contour of its cap-rock bed, eventually to become rapids. Left shows how falls undercut soft rock to break off the cap-rock brink, and map at right shows how falls have shifted backward. Dotted line at top marks the latest retreat of the cap-rock.

## LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

An Argument for the Short Ballot. To the Editor of the Post-Dispatch:

In this column of Jan. 18 I saw a letter from one who styled himself "A Voter" lamenting the fact that the League of Women Voters had pronounced a proposal for the adoption of the short ballot in this state. As far as I can see, the right of the electorate to select its officers. Does he really think that he selects the officers he votes for, or that he is any more than the rubber stamp of a machine? On election day the omnipotent American voter enters the polling place, is handed a ballot of about the proportions of a newspaper, and is expected to fill some score of offices from some three-score of candidates, most of whom he has never heard of. The average voter has neither the time nor the inclination to inform himself of the merits of these candidates. He records his own preferences for the most important offices, President, U. S. Senator, Governor and a few others, and like import, but as the rest he votes a straight party ticket. That is the raison d'être of all political machines.

A voter in the City of St. Louis is supposed to be responsible for the election of 103 public officials, ranging from the President of the United States to the local Constable. Every one of this five-score is theoretically responsible to the people, and to the people alone, for his official conduct. Has "Voter" ever taken it upon himself to investigate the actions of the 103 public servants immediately responsible to himself? If he should discover anything he believed contrary to good public policy, he could do nothing unless he had strong organization at his back. When he has organized, then he becomes the head of a "machine," a "boss." The conclusion is inevitable. Our Government as it stands, cannot be carried on without a political machine, in the face of an indifferent public opinion, becomes an irresponsible oligarchy.

A study of modern democracies will suffice to show that popular government is good only in so far as it adheres to and had only in so far as it departs from these principles:

1. The short ballot.

2. The merit system in the civil service.

3. An organization of the government looking towards the allocation of responsibility.

Coupled with an energetic public opinion, such principles cannot fail to assure, as far as is humanly possible, the ideal of government of the people, by the people, and for the people.

H. J. M.

Scores the Amusement Tax. To the Editor of the Post-Dispatch:

HERE is proposed by one of the Aldermen an amusement tax bill which calls for 5 per cent of the gross receipts of motion picture theaters, legitimate theaters and other places of amusement, for support of proposed new eleemosynary institutions.

This form of taxation is proposed on the basis that amusements are a luxury and I have been wondering since when the cheap form of entertainment enjoyed by the poor masses, such as the movies, has become a luxury. And if the law-making gentleman will refer to Webster's dictionary he will find the following definition given to the word "luxury":

A free indulgence in costly gratifications of the appetites and tastes, as in food, dress, etc., and so forth.

And in this enlightened age, spending from 25 cents to 55 cents for several hours of forgetfulness once or twice a week comes within the meaning of this definition, what then should be thought of automobiles costing up to \$15,000, with their attendant costly maintenance; diamonds and jewelry running into the thousands, expensive furs, expensive household furniture. Oriental rugs and paintings and antiques at ridiculous prices, and many other unnecessary extravagances too numerous to mention.

Why single out a poor man's diversion for taxation, which in finality he must bear, and allow the rich man's playthings, hobbies and foibles, to go scot-free?

No doubt the proposed institutions are needed, but why the class legislation? If there has got to be a tax, why not tax every form of business and merchandise and particularly the real luxuries, so that the burden will fall on all instead of on one class of business and people?

It strikes me the constant proposal of new tax bills is like the constant proposal of new laws, when as a matter of fact, the tax bills and laws already on the overcrooked books of legislation, if properly enforced, would accomplish the desired results.

Particularly is this true of the elaphod method of taxation in St. Louis, and if the aldermanic gentleman will get his head working on a plan to improve the workings of the tax laws we already have, he will come closer to showing some law-making genius and his efforts will be more in keeping with a time when a reduction in taxes would seem many-fold more proper than an increase.

THOS. L. MACDERMOTT.

## ADJUSTED COMPENSATION FIGHT.

War veterans' societies are asking the Government to pay adjusted compensation certificates at once. Secretary Mellon is opposed to the proposal. He says it would necessitate selling \$3,400,000,000 of Government bonds under unfavorable terms, that the securities market would be demoralized by such a flotation, that business recovery would be retarded and unemployment prolonged. Senator Harrison claims a majority of Senate Finance Committee members favor some form of cash payment. So the stage is set for a tug of war between Treasury officials, charged with the duty of orderly administration of finances, and Congressmen, beset by a powerful and energetic body of voters.

Under the adjusted compensation law, passed in 1924 as an alternative to a cash bonus, some \$3,500,000 certificates, of an average value of \$1012, were issued to war veterans. They are payable 15 years from now and constitute, in effect, paid-up endowment policies. They have a loan value which increases progressively and now amounts to about 20 per cent of their face value. Loans can be had by application to the U. S. Veterans' Bureau. Up to last November the bureau had made loans on 2,523,000 certificates. In order to pay off the certificates by 1945 the Treasury established a sinking fund, which now contains \$750,000,000 and which is increased each year by \$112,000,000.

If the Government were to accede to the veterans' request it would have to increase the national debt some \$2,500,000,000. We arrive at this figure by subtracting from the total face value of the certificates the money already in the sinking fund, plus the interest on the outstanding loans. Our national debt now stands at \$16,000,000,000, reduced from the high post-war figure of \$25,000,000,000. Of course, to increase it would involve an added interest burden for the taxpayer to meet.

It is argued by the veterans that the distribution of \$3,000,000,000 of cash at this time would tide them over the depression, would stimulate purchases, likewise production, and speed the return of normal conditions in our industrial and commercial life. We believe the veterans overestimate the beneficial effects of their proposal, just as we think that Secretary Mellon overstates the case against it. However, we think that Mr. Mellon's position, at bottom, is the sounder one. This is not a favorable time for the issuance of securities in vast amounts. The market is already glutted and its powers of absorption limited. Moreover, the causes of the depression lie too deep to be rooted out by such artificial restoratives as the distribution of even so large an amount of cash. It would be merely borrowing from Peter to pay Paul.

What do the holders of the certificates themselves think about the proposal? The American Legion convention refused to endorse it, although later the Legion's Executive Committee came out for it. No poll, so far as we have been taken of the rank and file. It is conceivable that a good many of them would prefer the *status quo*, since under it they are assured of getting the money at a time of life when, as a general rule, it will be needed more than it is now.

## A STORM IN A KETTLE.

In Mussolini's pocket today is an apology from the United States Government for remarks made about him in a recent speech by Gen. Smedley D. Butler. In addition, he has the satisfaction of knowing that Gen. Butler is under arrest pending a court-martial. Such prompt and unusual action should assure the wounded vanity of II Duce. It is seldom that our Government bestirs itself so ostentatiously over so trivial an incident. Gen. Butler's speech attracted little attention until the sensitive representatives of Mussolini discovered and made capital of it.

And who is Gen. Butler? Admittedly a fine soldier, but a rash and somewhat fanatical person who some years ago stooped to prefer charges of drunkenness against a fellow officer whose guest he had been at dinner on the night the drunkenness was alleged to have occurred. Gen. Butler was not talking for anyone but himself when he made the speech before the Contemporary Club at Philadelphia, and we think for the State Department to permit his remarks to be magnified into an international incident is to brew a storm in a kettle.

## RED CROSS AND POLITICS.

Chairman John Barton Payne of the Red Cross decried emphatically that his organization has been playing politics. The charge was made in connection with his statement that the Red Cross would not administer the \$25,000,000 relief fund voted by the Senate. Aside from the merits of the question, the fact is Chairman Payne's statement was issued in the middle of a bitter political fight between the President and the Senate over whether such an appropriation should be passed. Its effect was to serve notice on Congress that it would be futile to pass the bill. We submit this is playing politics because it was to all appearances an attempt to influence legislation. If the Red Cross does not want to accept such an appropriation, if it is unable to disburse it fairly, the proper procedure would have been to withhold its views until the appropriation was passed and submitted to the organization.

The Red Cross is one of the most highly valued of American institutions, because in the past it has devoted itself single-heartedly to the relief of suffering humanity, but it cannot continue to hold its reputation if it is to descend to the political cockpit.

## RADIO AND THE NEWSPAPER.

Church of England committee announces radio has aided morality, and U. S. officers seize radio station at Newark, N. J., said to have directed liquor smuggling; two Chicago children, run over by street car, are only scratched, and Bancroft (Wis.) woman yawns so hard she dislocates jaw; wildcat, trying to fight train near Stateboro, Ga., is killed, and Ionia, Michigan, at low-flying airplane near Arusha, Africa, wrecks it; Red Cross aids Arkansas farmers, and farmers near Wakarusa, Kan., take up polo; William Green, American Federation of Labor president, estimates U. S. unemployed at 5,700,000, and Russia has labor shortage of 2,000,000 men; Washington man adopts and promises education to 17-year-old orphan youth who returned purse with \$50 he had lost, and two men, finders of wallet containing \$150 at Aurora, Neb., get \$1 reward; 1500 armed men on wolf hunt near St. Joseph, Ill., use planes, autos and horses, but fail to get a wolf, and Centerview (Mo.) farmer, 83, chases wolf and kills it with pocket knife.

The Minnesota editors may be right in their premise. Radio's capacity for distributing information is established. It is also an advertising medium. Speaking in bromidom, everybody says radio is in its infancy, and nobody knows what it will develop into. What may confidently be asserted is that nothing the newspaper may say or do will seriously obstruct radio's destiny. There is no appeal in the court of human endeavor or experience from the verdict of the survival of the fittest. The automobile

is driving home that truth to the railroads, just as the railroads banished the stage coach and, later, strangled the rivers. Progress is a killer as well as a creator. Radio today does not threaten the newspaper's life. If tomorrow radio pauses to preach the newspaper's funeral sermon it will do so because, as the able utility, it has earned the right to live.

## MISSOURI'S COMRADE STALIN.

Theodore Gary seems to be the Stalin of Missouri. Anyhow, he is as determined to put through his 10-year plan as the Russian comrade is determined to put through his five-year plan. Their methods may be different. In stern resolution they are brothers.

The Gary plan proposes an excessive taxation of incomes and industry, by which an expenditure of more than \$192,000,000 in a 10-year period is to be financed. The forces of evil are already plotting against it, as Gary told an audience of legislators at Jefferson City. He has heard that the enemy is raising a fund of \$250,000 to defeat the measure. "I don't know who is behind it," he is quoted, "but I think I could find out." He was also quoted as being "at a loss to understand" how such an amount could be spent, "since no campaign of education is contemplated." The implication is rather obvious.

This sort of patter is tiresome. And it is not Gary's first offense. He indulged in much the same sort of innuendo when he fought the \$75,000,000 road bond issue. Then as now, Gary was all for laying on the taxes. He wanted the State to pay for the roads as it built them. "Pay-as-you-go" was his slogan. Then as now he was intolerant of opposition. He waged a devastating war on the bond issue on the most prolific typewriter in the State, always excepting Charlie Becker's.

Just a word about the road bond project. It was drafted by the late John M. Malang, who had given years of priceless service to our good roads while Gary was absorbed in the admirable business of getting rich. It was supported by almost every organization of consequence and character in Missouri. Public spirited citizens from every section of the State took off their coats and worked for it. Despite all this, Gary spoke of the "sinister interests" behind the road bond issue. The people of Missouri answered him by decisively ratifying the proposal.

Again, we have a Gary plan, and again, so Gary intimates, there is a conspiracy to defeat it. Piffle. If there is a scheme to beat the Gary bill in the Legislature, a fund of \$250,000, Gary should speak out forthrightly and say who the conspirators are. Until he does so we shall have to think the Mahout of Macon is talking wildly.

Of course, there is opposition to the drastic, impracticable program of expenditure proposed by Gary.

But the opposition will not try to defeat it by investing \$250,000 in a non-educational campaign in Jefferson City.

## SHERWOOD EDDY TURNS SOCIALIST.

There must have been many a startled countenance and uneasy heart when Sherwood Eddy told the leaders of the Y. M. C. A. that he had become a full-fledged Socialist and intended to work with that party "for economic justice." They had gathered to pay tribute upon his retirement as secretary for Asia after 40 years with the Y. M. C. A. That the guest of honor should take the occasion to pledge himself to fight for economic and political reform, recognition of Soviet Russia and birth control, as well as world peace and the revitalization of religion was hardly to be expected. But, however they may have doubted the propriety of his announcement, they could not have questioned his sincerity. They were too familiar with his long years among the youth of Japan, Korea, China, India, Russia and the Near East for that. Dr. Eddy meant what he said.

And who is Gen. Butler? Admittedly a fine soldier, but a rash and somewhat fanatical person who some years ago stooped to prefer charges of drunkenness against a fellow officer whose guest he had been at dinner on the night the drunkenness was alleged to have occurred. Gen. Butler was not talking for anyone but himself when he made the speech before the Contemporary Club at Philadelphia, and we think for the State Department to permit his remarks to be magnified into an international incident is to brew a storm in a kettle.

## FADS IN PICTURES.

It would be interesting to know why certain pictures are hung in million homes and not certain others—why, for example, Watts' "Hope" and Burne-Jones' "Golden Stairs" were chosen by the late Victorians over the lovely, red-haired women of Rossetti. One of the reasons is Frederick Hollyer, and it is news that the studio of this noted English photographer is to close after 60 years. Hollyer it was who photographed the work of Burne-Jones and Watts so skillfully in the '90s that Victorian housewives established a vogue for them, a feeling that was soon taken up in America. Watts' "Hope"—the lady sitting on a sphere with a two-stringed lyre—had probably sold more widely than any other picture of recent times. It is still possible to buy it in almost any department store, even though the style has changed. Individual taste, it would appear, plays a comparatively slight part in these matters. We can make his work known and respected in the United States as it is today in far-off parts of the world.

## NEWS REEL.

Church of England committee announces radio has aided morality, and U. S. officers seize radio station at Newark, N. J., said to have directed liquor smuggling; two Chicago children, run over by street car, are only scratched, and Bancroft (Wis.) woman yawns so hard she dislocates jaw; wildcat, trying to fight train near Stateboro, Ga., is killed, and Ionia, Michigan, at low-flying airplane near Arusha, Africa, wrecks it; Red Cross aids Arkansas farmers, and farmers near Wakarusa, Kan., take up polo; William Green, American Federation of Labor president, estimates U. S. unemployed at 5,700,000, and Russia has labor shortage of 2,000,000 men; Washington man adopts and promises education to 17-year-old orphan youth who returned purse with \$50 he had lost, and two men, finders of wallet containing \$150 at Aurora, Neb., get \$1 reward; 1500 armed men on wolf hunt near St. Joseph, Ill., use planes, autos and horses, but fail to get a wolf, and Centerview (Mo.) farmer, 83, chases wolf and kills it with pocket knife.

## NEWS REEL.

The Red Cross is one of the most highly valued of American institutions, because in the past it has devoted itself single-heartedly to the relief of suffering humanity, but it cannot continue to hold its reputation if it is to descend to the political cockpit.

The Minnesota editors may be right in their premise. Radio's capacity for distributing information is established. It is also an advertising medium. Speaking in bromidom, everybody says radio is in its infancy, and nobody knows what it will develop into. What may confidently be asserted is that nothing the newspaper may say or do will seriously obstruct radio's destiny. There is no appeal in the court of human endeavor or experience from the verdict of the survival of the fittest. The automobile

is driving home that truth to the railroads, just as the railroads banished the stage coach and, later, strangled the rivers. Progress is a killer as well as a creator.

The improved means of checking up on industrial performance by wider knowledge and more statistical measurements.

The increasing realization, in business

circles, that individualistic competition leads to disaster, as in coal, oil wells, cotton textiles; that whole industries must approach planning and management for their own good.

The growing understanding of the science

of administration and management, which rests on research, planning and co-operative control rather than on hunches and bosses. The feeling that this technique, so successful in individual plants, ought to be applied to broader fields.

More important than anything else in its potential effect is, of course, the Russian experiment. So far its influence has been

as far-reaching as any in the world.

There may be citizens of the United States

to whom all this information is well known;

there may be others who do not want to know it. But for the vast body of us it is interesting, not to say instructive. Long life to "The World Almanac" for giving it to us through its guillotine.

PRE-WAR ATROCITY.

From the New York Evening Post.

ONE of the lesser movie officials insists

that the 10-cent motion picture will soon

be with us again. The trouble is, however,

that they'll continue to charge \$1 for it.

## Make system alkaline to Help Check Colds QUICK!

Get Rid of Colds Before They Weaken You, Make  
You Liable to More Serious Troubles.

Nowadays it's important to stop your cold quick before it weakens your resistance to more serious trouble.

Any of the older treatments will bring relief—after a time. But thousands say this new way is a quick way.

Begin when you feel a cold coming. In addition to your regular cold treatment, take a tablespoonful of Phillips Milk of Magnesia in a glass of water, morning, noon and night, the first day.

Do same the second day. Then only at night.

Colds reduce the alkaline balance of your system. That makes you feel achy, feverish, weak. Phillips Milk of Magnesia helps relieve this, and restores the alkaline balance.

Doctors prescribe Phillips Milk of Magnesia; hospitals use it. Millions know how it relieves sour stomachs, gas, indigestion, constipation and other symptoms of too much acid. Get the genuine.

PART THREE.

### WALL STREET BEST UPTURN IN WEEKS IS CUT BY LATE STOCK SALES

Advance, However, Is Con-  
fined to the More Volatile  
Issues With Most of the  
Pivotal Shares Getting Up  
Little More Than a Point  
at Peak—Steel and Tele-  
phone Off.

By the Associated Press  
NEW YORK, Jan. 30.—A bubble of bullishness swelled up in today's stock market, only to be pricked by week-end profit taking in the final few minutes.

Closing quotations were irregularly higher, but extreme gains of 10 points were sharply reduced. The advance had been confined to the more volatile issues, with most of the pivotal shares getting up little more than a point at the peak. The market, while it was nevertheless, was one of the sharpest of recent weeks. Trading quickened the day's turnover, aggregating 2,100,000 shares.

The bond market showed a little better tone, but with several bankers expressing concern over the possible effects of the proposed redemption of veterans' certificates. Government obligations were again steady. The financial district found several new earnings reports about as expected, or a little better. Auburn gyrated wildly, rushing

up 9 points in a squeeze of shorts, losing all its gain, then closing up 3 points. Columbian Carbon and Worthington rose 10 and 9 points on rumors of natural gas contracts, but closed up 7 and 5, respectively. Gains of 2 or 3 points were reduced to about 1 point in Bethlehem Steel, Case, American Can, Westinghouse Electric and du Pont. U. S. Steel closed off of a fraction, but lost 1 point. Other points included American Telephone, Electric Power and Light, New York Central, Consolidated Gas, Sears-Roebuck and Anaconda, the last named reflecting an ease in copper prices.

Foreign exchanges were irregular, with conspicuous strength in sterling, which advanced 3-32 to \$4.85 21-32. The Canadian dollar eased a little, making a discount of  $\frac{1}{4}$  of a cent.

The Bethlehem Steel report appeared to have been somewhat better than expected, or at least thoroughly discounted. Traders who had gained shares on the theory that only a few cents a share in the final quarter would be unsettling, hastened to cover. Sears-Roebucks' 1930 net was less than half that of 1929, but the management expressed the opinion that price levels had about reached bottom, and profit margins in 1931 would be more satisfactory. Dupont's net of \$4.64 a share compared with dividend requirements of \$4.

Decrease in Loans.

One of the most favorable developments in the day's news was the further and unexpected decrease of \$23,000,000 in brokers loans. The persistent decline in share prices has indicated a steady decline in the market's foundation. Credit rates remained stationary, and the Federal Reserve statement showed that it had been possible to withdraw further credit from the market. The settlement in the bond market, despite the low money rates, however, has caused the deferral of several projected offerings, including a \$75,000,000 City of New York issue.

The upturn in Worthington was in response to paying off of accumulated back dividends on the preferred, and an unconfirmed report of a large contract to provide compressors and equipment for a large pipeline project.

## THURNBLAD DEFEATS HALL FOR WORLD'S 3-CUSHION BILLIARD TITLE

## \$50,000 BET ON MATCH; LAYTON PLAYS HALL FOR SECOND PLACE

By the Associated Press.  
CHICAGO, Jan. 30.—Arthur Thurnblad of Chicago, who thought he could play billiards because he was a good geometry student, is the new three-cushion champion of the world.

The lanky Swede captured the title, worth between \$20,000 and \$30,000, by upsetting Allen Hall of St. Louis, 60 to 42, in 62 exciting innings last night in the final match of the 1931 championship tournament. His victory was one of the most surprising triumphs since the days when the famous Willie Hoppe hitched up his short trousers and toppled over the gray-haired members of yester-year.

Thurnblad, a draftsman by profession, played a consistently brilliant game against Hall, as he did in brushing through to the title. Shaky and erratic at the start of the championship match, he made mistakes that enabled Hall to gain a 25 to 18 lead at the end of the twenty-third inning. Then he found himself and his steady stroke, tied up the count and then took the lead at 30 to 29 in the twenty-ninth inning.

## Three Kisses Stop Hall.

After that it was a close up and down match until Hall was stopped by three consecutive kisses in the forty-sixth, forty-seventh and forty-eighth innings that gave the new champion a lead of four points and shattered Hall's nerves. The hard match ended with Thurnblad running out with a cluster of four points. Hall had given him a perfect position after missing a long, treacherous bank shot.

More than \$50,000 was wagered on the match, it was estimated, and the Thurnblad backers reaped a bumper harvest as their man entered the match on the short end of 7 to 5 odds.

## Landon Best Thurnblad.

Thurnblad's record in his sweep to the title was a remarkable one. He scored the maximum of 400 points to win the northern sectional championship, and 349 out of a possible 550 in the world's tournament. A grand total of 749 out of a possible 750 points. His only defeat in seven matches came at the hands of Johnny Layton of Sedalia, Mo., the dethroned champion, who beat him, 50 to 49, in the closest match of the 10-day tournament.

Hall and Layton, who won five matches and lost two in the regulation tournament play, will meet tonight in a 50-point match to decide second place, which is worth \$4200 in cash plus a higher share of the gate receipts.

## PATTERSON RUNS 44 FOR NEW RECORD AT POCKET BILLIARD PLAY

J. W. Patterson astonished a gathering of billiard fans at Patterson's last night by running 44 balls in one inning to win his city championship pocket tournament match from R. McDonough. The score was 100 to 54, and the innings were 22.

The former record in amateur tournament play here was 81, made by E. W. Moore in the present tournament. Patterson was in wonderful form, not only in countering steadily, but in executing difficult shots.

Tonight, F. Hopson will meet F. Carson and tomorrow night E. W. Moore meets R. McDonough.

## HARPER LEADS HARRIS IN TITLE CUE MATCH

By the Associated Press.  
CHICAGO, Jan. 30.—Robert Harper of Denver, the defending titleholder, held a 16-point lead over Dr. Andrew Harris of Chicago as their battle for the national amateur three-cushion billiard championship extended into the second of three 50-point blocks.

The champion opened defense of his title yesterday by winning the first block, 50 to 34 in 61 innings.

## Gold Meeting Tonight.

A meeting of the St. Louis District Billiard Association is to be held at Chase Hotel tonight, at which dates for tournaments during the coming season will be assigned and clubs which are to hold them designated.

## "Unknown" Wins 1931 Bird Dog Championship

Special to the Post-Dispatch.  
MACON, Miss., Jan. 30.—The Derby bird dog championship for 1931 goes to the Hoosier State. Trago, white and liver colored pointer dog, owned by G. R. Feltman of Union City, Ind., handled by John Campbell of Flippertown, Ala., yesterday walked away with the honor with something to spare.

The stake is for setters and pointers, 2 years old and under, and takes place annually under the auspices of the National Field Trial Club.

The trials opened here on Wednesday morning, but Trago, practically unknown on the circuit until a few weeks ago, ran as the few leaders and produced such a brilliant performance that he was not called up to run a final heat.

## Rickard, Forced Out of California, Selects Nevada for Title Fight

## Pressure of Politics Made Golden Gate Governor Break an Earlier Promise to Allow the Bout.

## No. 12. BUILDING UP BIG FIGHTS' By Ike Dorgan.

(Press Representative for Tex Rickard.)

WEN Tex Rickard headed for California with his Jeffries and Johnson championship bout, he had the assurance of "all hands" that everything would be fine.

He had even the assurance of Governor James E. Gillett that he would officially sanction the bout.

RICKARD'S choice as the best fighter of all time was the burly Jim Jeffries. Dorgan, in this installment, how Tex, while carried away by the exploits of Jack Dempsey, refused to believe that the Dempsey of Toledo could have whipped the Jeffries of the second fight with Bob Fitzsimmons.

And Fitzsimmons the second time, never could have been beaten on this earth. I always thought that Tex was carried away by the exploits of Dempsey, but when you tried to tell him that the Dempsey of Toledo could have whipped Jeffries of the second Fitzsimmons fight, he wanted to toss you through the side of the building. Only those close to Tex knew of his unshaken faith in that particular Jeffries.

## Everything Looked O.K.

BOKING had been firmly established in California for so many years that Rickard, quite naturally of course, figured that all he had to do was to pitch his ring.

Jeffries liked Sam Berger, Jeff made few friends. A sullen giant, he probably had fewer chums than any man in the world. Bob Vernon, the Pommery agent, was one of them, Berger another.

When Rickard bobbed up there was a fine young ron on his hands.

The three promoters wanted a part of the show, especially Griffin, who had the Juley permit, the month in which Rickard proposed to put his stars into the ring.

It didn't take Tex long to get Jeffries into the ring. Tex gave him a cash and percentage consideration that insured Griffin more money than he ever had made as an independent promoter.

When Rickard bobbed up there was a fine young ron on his hands. The three promoters wanted a part of the show, especially Griffin, who had the Juley permit, the month in which Rickard proposed to put his stars into the ring.

It didn't take Tex long to get Jeffries into the ring. Tex gave him a cash and percentage consideration that insured Griffin more money than he ever had made as an independent promoter.

Tex looked around for a location.

He bought his lumber and began the erection of his arena on Eighth street, near Market, an ideal spot for San Francisco to be.

Then, out of a clear sky, came a bombshell that would have driven any promoter save Tex Rickard right down to the wharf for a plunge into the San Francisco Bay.

Gov. Gillett had suddenly announced that the heavyweight bat-

tle would not be permitted.

Turned to Sacramento to see Gillett. "Why had the Governor re-

versed himself?"

He told Rickard quite frankly that the bout could not take place in California because of the overwhelming objections of church peo-

"I'm sorry, Rickard, but you have no idea how they've come down on top of me because I was ready to permit this contest taking place. I've got letters enough to fill this room from floor to ceiling from all over the country. I can't allow you to go through with it. I'm sorry."

Tex acted immediately. He knew his Nevada. He would switch to Reno, Nev. He made that an-

nouncement without further hem-

ming and hawing.

Club has had losing season.

A rule of the league specifies that a visiting club shall receive a flat guarantee of \$250 for each game and as this sum barely takes care of traveling expenses, it may be seen that this season has been very trying on the check book of Walter Wittenberg.

The Flyers have won only four contests, have lost 17, and are last in the league race.

Admission prices are expected to range from 50 cents to \$1.50.

By the Associated Press.

BUFFALO, N. Y., Jan. 30.—The Buffalo Majors won an easy game from the St. Louis Flyers 5 to 1 in the American Hockey League last night. It was the Flyers' sev-

enteenth defeat.

Summer to Box Risks.

By the Associated Press.

## Promoter Figured Jeffries as Best Battler of All

## Tex Finds That Several Californians Have to Be "Cut In" Before Arrangements Can Be Made.

By W. J. McGoogan.

There are dozens of arguments going on today among the thousand or more fans who attended the amateur boxing show at the South Broadway A. C. last night as to whether Joey Parks defeated Morgan Lingenfelter in the final bout.

But as both judges, Seneca Taylor and Robert Hall agreed at the end of three rounds that Parks had won there is little use of further arguing.

It was a fine bout. It pleased the fans and even if Lingenfelter did lose he put up a fine exhibition of boxing, crowding his heavier and taller opponent for the three rounds and taking all of Parks' punches.

The match was made after Lingenfelter had scored three victories in a row recently and the agreement was for Parks to weigh in at 123 pounds. But the closest he could get to that figure was 132. Lingenfelter was eight pounds lighter and although the rules permit a discrepancy of only six pounds in the featherweight division, Lingenfelter and Parks both wanted to box and were permitted to do so.

## Parks Booed and Cheered.

It appeared after three rounds that a fourth session would be necessary to determine the victor and when last night, the "Fargo Express" went into the round house for repairs and remained there for a long, long time.

This match might have helped to put Madison Square Garden back on its feet and restore the interest of the dumb, dumb fight world.

Instead, St. Paul has the affair and Petrolle will be satisfied with \$12,000, while Tut will take a gambler's share of what's left, after expenses are paid. This is one battle that should be worth the price.

## Belated Activity.

A LITTLE bit late, the Guards came to life and offered McLarnin and Petrolle a return match. In Petrolle's case that's like offering a life-convict a \$10,000-a-year job as soon as he is released from prison.

Petrolle's match with Tut, if he goes on, will be the running mate of Harry Menzel.

The Guards will play the pivot position. Howard Gray will be the forwards, Ward Parker the other, with Maudie Patton and Don Root the guards.

## Central, too, will have a re-

vised lineup with the introduction of Mitchell at center and Gershman and Syl Marik at the guards. Only Junior Sneed and Don Short at the forwards, will retain their places.

Soldan's stock went up with the addition of Paul Braudrick to the forward lineup. Braudrick will be the running mate of Harry Menzel.

The Guards will play the pivot position. Howard Gray will be the forwards, Ward Parker the other, with Maudie Patton and Don Root the guards.

**SERVICE CAR COUNSEL**  
**ANSWERS ALDERMEN**

Says Present Regulations, if Enforced, Are Sufficient Without New Law.

Answering criticism directed against service car operation by members of the Special Transportation Committee of the Board of Aldermen, Harry J. Cantwell, attorney for the United Service Car Co., declared today that all of the alleged violations complained of could be remedied through a stricter enforcement of the existing ordinance.

"The Aldermen say they are going to put teeth in the ordinance. All they have to do is see that the Police Department and the Director of Streets and Sewers enforce existing regulations," Cantwell said.

The Transportation Committee listed the following complaints against service cars:

Speeding, reckless driving and "hogging" the road.

Jockeying for business, interfering with traffic.

Failing to maintain spaced intervals between cars.

Operation only in profitable day hours, charging a high rate for infrequent night service.

Lack of officially established and maintained routes.

Defective brakes and dangerous doors on some cars, lack of, or disconnected, speedometers.

Overcrowding.

Causing congestion in loading zones downtown.

Alderman Kaufmann added to this a purported statement by a driver that it costs between \$400 and \$500 to join one of the two associations controlling the business.

Would Include Buses, Too.

Answering the objections in order, Cantwell declared that speeding could be stopped if motor cycle policemen would watch the roads for drivers who speed recklessly, and make arrests. "That should apply to buses as well as to service cars, however," he added.

Interference with traffic in the congested area could also be remedied by police, according to Cantwell. "That also should apply to buses," he said.

With reference to spaced intervals Cantwell said service cars operated at intervals of one to four minutes, depending on the time of day. "Our machines operate only until midnight and are authorized to charge no more than 25 cents. If a driver charges more than that at night, he should be stopped and punished," the attorney declared.

"Covering the other objections briefly," Cantwell continued, "we operate 15 routes, the majority of which have been going steadily for three years. The service car ordinance provides for revocation of license of machines having defective brakes and other dangerous conditions, and the ordinance also provides that only two passengers over the manufacturers' capacity rating may be carried. We are ready to enforce all these regulations but we certainly will oppose special legislation designed for the city utility crowd."

Cost of Joining Association.

Concerning Alderman Kaufmann's report that it costs between \$400 and \$500 to belong to the association, Cantwell said each of the 294 union service car drivers pays \$22.95 a month into the association, which includes the union dues. "A new man pays \$50 for initiation into the union, and that is all," the attorney said.

Under the ordinance service car drivers are required to pass a physical examination, and their cars are subject to inspection. They pay a license amounting to one-half the State license tax on the particular machine, and must carry liability insurance.

Cantwell has written a letter protesting against the holding of the Aldermen's committee meeting without notifying him. "They might have at least given us a chance to defend ourselves," he declared.

**"She's a Darling"**

Many women want to be, deserve to be, and could be far more popular than their lot. Doctors know why. So do nurses. They say such cases are caused by overindulgence in sweets.

To remedy unpleasant body odors and bad breath, you must recognize their cause. The cause is overindulgence in sweets, the colon. Semi-constipation makes millions of toxins abnormal. There may be a daily bowel movement, but all is not always eliminated. The contents that remain pollute the blood and permeate the peristaltic action of the rectum. Nature is signaling her need of better elimination.

Calcium Wafers work wonders in one's appearance. With the inner system sweet and clean, the complexion clears and the figure is sleek and trim. The tongue is no longer coated, even on arising. And you never need take another harsh cathartic.

Please, you do not have proper elimination. You do not have a day a day water of calcium and water. It may be the difference in the world. Leave harsh cathartics alone. You never need them if you take an occasional calcium water.

**TRY THIS THOROUGH TEST**

A great many people prefer to buy conclusively the system. You can buy Calcium Wafers, and the benefit from these little tablets. Your druggist has them for 10c. Or the family size 60c. Start this test today!

### RECIPES FOR DISHES IN WEEK'S MENUS

A Group of Good Things Which Will Give Variety to the Week's Meals.

Winter pears baked and sweetened with honey make a nice breakfast fruit these days and are a welcome change. Peel the pears, but leave them whole. Put in a deep baking dish and cover with two cups water mixed with one cup strained orange juice and a little peel over the pears. Cover and bake in a slow oven for 45 minutes. The amount of water mentioned is enough for four large or six small pears. Serve warm or cold, plain or with cream.

English Mutton Chops.

Have mutton chops cut one and one-half to two inches thick. Trim and wrap a slice of bacon around each chop. Broil for 25 minutes, turning the chops several times during the cooking and placing the pan about six inches below the flame. Season with salt and pepper just before serving. Serve with baked potatoes. If more convenient the chops may be pan-broiled as follows. Heat a heavy frying pan hissing hot and drop in a piece of suet. Sear the chops quickly on each side, reduce the heat and finish cooking, turning the chops frequently and pouring off any fat that forms so the chops will not fry. They will take 20 to 25 minutes for cooking as in oven broiling.

Whole Wheat Date Pudding.

Crumb enough stale whole wheat bread to make two cupsful. Put in a bowl and add three cups of scalded milk. Stir to mix and let stand until the crumbs are very soft. Then add one-third cup sugar, one-fourth cup melted butter, one teaspoon salt, one teaspoon cinnamon, one-half cup dark molasses, two eggs well beaten and one cup finely cut, pitted dates. Pour into a buttered baking dish and bake in a moderate oven—350 to 375 degrees—for 30 to 45 minutes, depending on the depth of the dish. When done the pudding should be firm. Serve warm with foamy sauce or a tart fruit sauce.

Orange Bavarian Cream.

Soak two tablespoons gelatine in one-fourth cup cold water for five minutes and then stir over hot water until the gelatine is dissolved. Cut two large oranges in half and remove the pulp with a spoon, sweeten with one-half cup powdered sugar and let stand until the sugar is dissolved. Stir the gelatine and one-fourth cup cold water into the oranges and let stand until the mixture begins to thicken. Whip one cup heavy cream in an evaporated milk until stiff and fold it into the orange mixture. Pour into a mold or serving dish and chill.

Serve plain or garnished with sections of oranges and sweetened whipped cream. If preferred, one-half cup cream and two stiffly beaten egg whites may be used instead of the cup of cream. This makes a less rich dessert.

Enclosed Vegetables.

Put into a buttered baking dish one cup sliced cold potatoes, one small onion thinly sliced, one cup boiled diced carrots, one-half cup peas or lima beans, and one-half cup diced cooked turnip. Pour two cups well seasoned white sauce over the vegetables and cover with a layer of equal parts grated cheese and dry bread crumbs—using half cup each. Bake in a moderate oven—350 to 375 degrees—for 20 minutes.

For the white sauce melt four tablespoons butter, mix with four tablespoons flour and then stir in two cups milk. Stir until thickened, smooth and boiling. Season with one teaspoon salt, one-fourth teaspoon pepper, one tablespoon lemon juice, one teaspoon Worcester sauce and one-fourth teaspoon paprika.

SECRET OF CAKE BAKING

Cream Sugar and Fat Well Is the First Lesson to Learn.

Experiments made in the cooking laboratories of one of the great universities show that the best results in cake making are obtained when the fat and sugar are thoroughly creamed—this part of the mixing, in fact, should have the most beating. After the flour is added, the mixture should be beaten just long enough to mix.

If a home cook has not been having much luck in her cake making, let her take this into consideration—cream the butter and sugar until soft, creamy mass; add the eggs and beat again very thoroughly, but do not stir or beat any more than just enough to mix after adding the flour and baking powder.

EACH DAY'S FOOD SUPPLY

Good Health and Growth Depend Largely on the Dietary.

Nutrition authorities state that for good health each day's food supply should include one quart of milk if possible for each child and one pint for each adult; two vegetables, one of which is green; two fruits; one meal, meat or fish or a meat substitute; at least one egg per person per day (this may be used in cooking); bread and butter, and a small amount of sweet.

In planning meals these are the foods that are most used, but sometimes they are not used in correct amounts.

This table is an easy one to remember. It might be clipped and pasted in the front of the cook book or mounted on a card for the recipe file.

### SPAGHETTI AND BEEF MAKES A TASTY CASSEROLE DISH

This Popular Italian Product May Be Combined with Other Foods.

Break one-half pound spaghetti in pieces and cook in boiling salted water for 15 minutes or until tender. Drain and add one cup canned tomatoes, one tablespoon chopped onion and salt and pepper to season. Put a layer of spaghetti in a greased baking dish. Chop leftover pot roast or roast luscious puddings, pies and cakes.

Sweet Potatoes Cookery. Many people dislike the idea of sweet flavoring with starch foods. One good exception to this seems to be the sweet potato. It makes a substantial food, seasoned with meat juice or butter, but also has a flavor which blends well with spices, fruits and nuts to make delicious puddings, pies and cakes.

Get this tapered bottleful of flavor and give family and guests a treat. Catsup from juicy, sun-ripened tomatoes, with a spicy dash of Tabasco Peppers. Your grocer has it.

## MEAT PACKING PLANTS

Some are not!

U. S. Government Inspectors see that packing house rooms are well lighted and ventilated; that ceilings and walls are frequently washed and whitewashed or painted; that all trucks, trays, tables, tools, etc., are thoroughly cleaned each day they are used. They require that the outer clothing of the workers be kept absolutely clean. They forbid the employment of anyone who has a contagious disease. They make sterilization a requisite.

Each U. S. Government-Inspected plant must measure up to high standards every day in the year. But non-inspected plants can do as they please. Some are wonderfully clean and sanitary but some are not. Some are frankly impossible. You would never eat food prepared in them if you knew it.

U. S. Government Meat Inspection applies not only to meats like roasts, steaks, etc., but also to "meat products"

One of a series of educational messages, sponsored by the following

### U. S. GOVERNMENT INSPECTED PACKING ESTABLISHMENTS

|                             |     |                                   |      |

When you go to your retail market, you can identify U. S. Government-Inspected Meat in these two ways: (1) By the little Government circle which is stamped in harmless purple coloring on all primal cuts of fresh meat. (2) By the following phrase or legend which is printed on all packages of meat products: "U. S. Inspected and Passed by Department of Agriculture." These marks are your protection—look for them!

RAISED LIVER LOAF  
Wipe with wet cheesecloth two spoons pepper and one table-  
sized calf liver, lard rounded side-  
with strips of bacon, cut two slices  
on dice, put in frying pan  
one onion sliced and cook un-  
til yellow.  
Remove to baking dish, place  
on top, sprinkle with one and  
half teaspoons salt, quarter tea-  
spoon flour.  
Remaining in  
spoons flour  
three minutes  
lemon juice.  
meat.

NOT A SOUND...not a stir...not even a care. Away for the night! Morning comes...he's ready... ready for everything. Breakfast... that comes first of all. Milk, orange juice and then for Ralston Whole Wheat Cereal. My, how he loves its velvety creaminess and its sweet, wheaty flavor.

Ralston Whole Wheat Cereal is downright good for him. You know it, too, by the look of him. That full chest...those chubby arms and hands...sturdy legs...pearly teeth...surely Ralston Whole Wheat Cereal is chockful of the things he needs! It's just pure golden-ripe wheat granulated. Costs less than a penny a dish.

FROM THE THOUSAND WINDOW BAKERIES of Lass-Willis Biscuit Co.

#### BAKED NUT LOAF

Often Served as the Main Dish of a Vegetarian Meal.

Four slices of toasted bread, crumbed, two cups peanut butter, two medium-sized onions, four eggs, two teaspoons salt, two cups mashed potatoes, one cup milk.

Soak the bread crumbs well dried out. Have ready the peanut butter which has been mixed with the milk and add this mixture a little at a time to the crumbs. Have ready the eggs which have been beaten and add to the mixture.

Stir in the bread crumbs, the chopped onion, the hot mashed potato and then the seasonings. Turn into an oiled bread tin and bake in a moderate oven.

Remove from the pan by turning out upside down on a platter. Serve with any desired vegetable or with a garnish of parsley.

How to Skin Fat From Soup.

Allow the soup to stand in a cold place until chilled and the fat congeals or forms a solid scum on the surface. It is then an easy matter to remove it. The soup should be reheated before serving.

#### How to Skin Fat From Soup.

tender, remove fruit from liquid and boil for five to 10 minutes, or until it is thickened. Figs may also be steamed or cooked.

Read Recipes Carefully. Those who appreciate the value of careful measurements, may read each recipe carefully and take time to measure accurately with standard measures. There is, for example, all the difference in the world in measuring "one cup of chopped cabbage" and "one cup of cabbage, chopped"—a difference that will be reflected in the finished product if not read and measured correctly.

A Cooking Suggestion. Dried fruit baked in a casserole for a long time at a low temperature develops an unusually rich flavor, is very easy to prepare and requires little attention while cooking.

### Uneeda Bakers PREMIUM SODA CRACKERS

The crispest, flakiest cracker that ever accompanied a salad or a soup. Such crisp saltiness would have to belong to the biggest selling salted soda cracker in all the world!

### PARSNIPS ARE FINE

#### FOR WINTER MEALS

Many Appetizing Dishes May Be Made With This Homely Vegetable.

Parsnips are one of the homely, old-fashioned vegetables that do not get as much attention as the dessert. They are inexpensive, are good all during the winter months, when properly cooked have a delicate, though distinctive flavor, and may be used in a number of ways to make very appetizing dishes. They seem to go especially well with mutton or lamb.

In buying parsnips select medium sized ones that are firm to the touch. Large ones are apt to be strong in flavor and woody in texture. They should be scraped, like carrots, before cooking, and are best if cut in quarters and the core removed.

They may be boiled and served with cream sauce, mashed and made into flat cakes that are browned in hot fat, boiled and browned in the pan with roasting meat, made into chowder, etc.

#### Parsnip Chowder.

This is an old-fashioned dish that makes a delicious cold weather luncheon. Melt two tablespoons fat, add one good sized onion sliced and cook slowly until the onion is yellow—be careful it does not scorch. Add three cups diced parsnips, two cups diced potatoes and one quarter pound bacon. Boil slowly for 30 minutes or until the vegetables are tender, then season with salt and pepper, add two cups milk and thicken with one or two tablespoons flour mixed to a smooth paste with cold milk. Serve very hot with toasted crackers or pilot crackers.

#### Baked Parsnips.

Allow two parsnips for each one to be served. Boil or steam until very tender. Cut in strips removing skins and arrange in crosswise fashion in a deep baking dish. Season with butter, pepper and salt and add a dash of sugar. Place on top thin strips of bacon and bake until the bacon is crisp.

Nice Cold Meat Relish.

A relish adds a great deal to the tastiness of cold meats.

Make a delicious relish in this way: Mince one cup of cold cooked beets. Add three tablespoons of grated horseradish, two teaspoonsful of powdered sugar, one-half teaspoonful of salt and two tablespoonsful of lemon juice. Mix well.

### PIGGY WIGGLY

### PIGGY WIGGLY

#### The Joy of Knowing You Have Chosen Well

One of the many advantages of shopping at Piggly Wiggly is the joy of knowing that you have chosen foods that are of the finest quality... foods that are guaranteed by a well-established company, assuring complete satisfaction or your money back. Large purchases have made it possible to increase quality and reduce prices... it naturally follows that Piggly Wiggly with its background should produce foods of outstanding value... and give the utmost in service.

Do you  
know this about  
**Prunes?**

THE FINEST PRUNES are never picked or knocked from the trees. Never!

They are allowed to hang until ripe and heavy with sugar that they drop of their own weight. The fanciest of these fully-matured and sugar-ripe prunes from California's famous orchards are selected for SUNSWEET brand.

Every prune plump and fruity. Every prune thin-skinned. Every prune sweet and flavor-full.

**SUNSWEET**  
California  
**PRUNES**

Every prune sound & whole. This extra goodness is what you always ask for SUNSWEET. Wonderfully good and wonderfully good for you. Sealed in 1- and 2-lb. cartons to keep them clean and fresh. Lowest price in years.

**Easy to Prepare**

Just heat and serve! Carried by leading grocers everywhere.

# LOCAL STOCK PRICES MIXED ON EXCHANGE

ST. LOUIS STOCK EXCHANGE,  
Jan. 30.—The local market got  
away to a quiet start, but  
picked up subsequently.

International Shoe and Hamil-  
ton-Brown were unchanged.

Franklin-American Trust sold at  
131, down 4.

Laclede Steel at 32 and Skouras  
at 10 were up a point each.

Laclede-Christy sold at 15 1/4.

Coca-Cola Bottling closed two  
points higher and Brown Shoe  
fractionally lower.

St. Louis Public Service stocks  
figured in trades with 745 common  
selling at four, up 4/4 point and  
the preferred down two at 12. The  
latter was a new low and compared  
with previous bottom level of 20.

## Local Business and Financial Items

(Paragraphs for publication in  
this column should be addressed to  
the Financial Editor.)

Bills discounted by the Federal  
Reserve Bank of St. Louis de-  
creased \$405,000 for the week  
ending Jan. 28. Total bills dis-  
counted were \$10,802,000, as com-  
pared with \$11,207,000 last week.  
Bills discounted secured by United  
States Government obligations,  
\$4,257,000, decreased \$42,000; other  
bills discounted \$6,515,000, in-  
crease \$16,000; total gold reserves  
\$102,187,000, decrease \$8,000; total  
reserves \$115,187,000; increase  
\$78,000; total resources \$187,717,  
000; decrease \$4,348,000. Ratio  
of total reserves to deposit and  
Federal Reserve note liabilities  
combined was 7.1 per cent, in-  
crease 1.1 per cent.

The St. Louis Car Co. declared  
a dividend of 50 cents on the com-  
mon stock.

## Wall Street News and Comment

By the Associated Press.  
NEW YORK, Jan. 30.—Depart-  
ment store sales in December in  
the New York Federal Reserve  
district were 6 per cent smaller  
than in the like month of the pre-  
vious year, the review of credit  
and business conditions of the  
Federal Reserve Bank of New  
York says. This decrease occurred  
although last month had one more  
selling day than December of  
1929. Wholesale business aver-  
aged 15 per cent smaller last  
month, while reporting chain store  
systems averaged 6 per cent below  
the year before.

Graham Paige Motors Corpora-  
tion has increased production  
schedules and taken on more em-  
ployees as a result of stimulus given  
the automobile industry by the automo-  
bile shows. A total of 2120 work-  
ers now is employed at the main  
factory in Detroit and the body  
plant at Wayne, Mich., an increase  
of 400 this month. In addition 125  
men were added at the body plant  
at Evansville, Ind.

Reflecting the glutted condition  
of the money market in January,  
the average reserve rate for call  
money for the month was 1.76 per  
cent against 2.16 per cent in De-  
cember and 4.74 per cent in the  
first month of 1920. The high of  
the month was 3 per cent but since  
Jan. 1 both renewal rate and the  
rate on new loans held stationary  
at 1.5 per cent.

Registrations for December of  
leading makes of new automobiles  
in the first 44 states to be heard  
from totaled 76,504, a decline of  
31 per cent from December of  
1929. The Chevrolet and Cadillac  
divisions of General Motors were  
the only ones showing gains over  
1929. The former showed a large  
gain as result of early introduction  
of new models.

The Clyde Steamship Co. of Bos-  
ton announced today that it would  
pay off its five per cent bonds mat-  
uring Feb. 1 of which \$812,000 are  
outstanding and an original \$6,000.  
000 issue. The company is a sub-  
sidiary of the Atlantic Gulf and  
West Indies Steamship Lines.

## COPPER MARKET REVIEW

By the Associated Press.  
NEW YORK, Jan. 30.—Copper  
was quoted nominally in the do-  
mestic market at 9 3/4 cents a pound  
delivered, today, a reduction of  
one-quarter of a cent.

Although customs smelters were  
willing to sell at that figure, buy-  
ers were said to be unwilling to  
make additional purchases at this  
time. Producers continued to re-  
main out of the market.

Fourteen sales this morning were  
well under 500,000 pounds, and  
yesterday totaled 1,500,000 pounds.  
The foreign price remained un-  
changed at 13 1/2 cents a lb. Euro-  
pean base ports, the first quarter  
shipments, and 10.35 cents for  
April.

Week's Bond Offerings \$220,000,  
000.

NEW YORK, Jan. 30.—New  
bond offerings this week totaled  
\$201,000,000, against \$101,747,000  
last week and \$127,321,000 in the  
like week last year.

LONDON, Jan. 30.—The offering of the  
wool sales today at the sale  
of wool selection. Competition was  
evident, and the advance was well  
received. Continental and British  
and pieces were in keen com-  
petition and in some favor.

# NEW YORK BOND MARKET

FRIDAY, JANUARY 30, 1931

By the Associated Press.  
NEW YORK, Jan. 30.—Bond sales on the New York Stock Exchange today were \$16,800,000, compared with \$12,800,000 yesterday. Total bond sales from Jan. 1 to date, were \$263,450,000, compared with \$210,516,000 last year and \$260,308,000 two years ago.

Quotations on all Liberty bonds are in dollars and thirty-seconds of a dollar. That is, for instance, a sale printed 93-24 means \$99 and 24 thirty-seconds of a dollar, and not \$99.24.

Following is a complete list of bonds traded in on the New York Stock Exchange today, giving sales, highest, lowest and closing prices.

Radio Tubes can now be bought on convenient terms.

Furniture is something you do not buy every day. It is more of an investment than an expenditure. Consequently it is necessary to get the facts before you buy anywhere—and if you do this you, too, will come to the Union House Furnishing Co. as have so many thousands of people since we bought out May-Stern & Co. We're closing out what remains of their stock and combining with this close-out our annual February Sale—a gigantic double event with double savings and double discounts.

**UNION  
BUYS OUT  
MAY-STERN**

We bought their entire stock at our own price. We haven't room for it and are forced to dispose of it at any price. That means savings unparalleled in furniture history—fact No. 1.

**Our  
ANNUAL  
FEBRUARY  
SALE**

We planned our annual February Sale long before we ever thought of buying out May-Stern & Co. We made all arrangements, purchase after purchase, for this sale, and now the merchandise is here! Therefore, we are throwing this all into the sale without restriction at prices lower than ever. St. Louis waits for our February Sale—and this year the savings are greater than ever. That's fact No. 2.

Because of this double event discounts now in effect throughout all our stores are the greatest ever.

Just come Saturday—and your own eyes will tell you that now is the time, and the Union the place, to buy your home furnishings at real savings.

**\$100 NOW  
Enrolls You in Our  
RADIO CLUB**

It does make a difference where you buy your Radio. Come in Saturday and make your selection from the most complete line-up of Radios in the city.

DAILY STORY  
FOR  
CHILDREN  
By Mary Graham Bonner

The Snow King  
"I've a question to ask you," Peggy said as the Little Black Clock presented the Snow King.

He was wearing a splendid crown made out of icicles, which gleamed in the sunlight, and a suit which made him look like a snow man.

"I want to know," she continued, "as the Snow King said that he would answer any question that he could. "If it will be clear a week from today, as we're going skating on Egg Pond."

"Here you ask me that question, and all the Little Black Clock was laughing at the joke too."

So the Little Black Clock turned the time ahead, and Peggy said that the day for the skating party was a fine, clear one.

Then he turned it back a few days for the sleigh-ride. How wonderful it was to take a sleigh-ride and the Snow King sat on the back of their sleigh and told stories of what had happened in his world where the Snowflake children and the Icicles lived.

It was late when they were on the way home, and the Snow King gave great cheers as the moon came out and the stars began to twinkle.

"Bring out my jewels for them to admire. Do you see? The Sun always likes to see my jewels, too," he said. And Peggy and John knew that it was true. They had been out some days when the jewels the Snow King was showing the Sun were so brilliant that they could hardly see them.

They said goodbye to the Snow King now, but as they shook hands with him it seemed as though each of them had clutched a snowball.

Tobacco Stains

Well-soaped pumice stone and hot water will remove obstinate cigarette stains from the fingers. Plain lemon juice will remove lighter stains. If you are a smoker who stains fingers, why not cultivate a cigarette holder?

ADVERTISEMENT

DANDRUFF  
Soon Destroys the Hair

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will strip your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you remove it entirely. To do this, get about four ounces of ordinary liquid aconit; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your symptoms of dandruff will be gone, and two or three more applications will completely dissolve and remove every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get dandruff at any drug store. Four ounces is all you will need. The matter how much dandruff you have. This simple remedy entirely cures dandruff.

## ACKLES COUGH

Don't Miss a Day of School

"Right before exams I caught a cough. I just hated to stay home and give my class to a substitute. Another teacher recommended Smith Brothers' Cough Syrup. When I got home I started to tackle my cough with the syrup. In just a few minutes and I was breathing easier, my throat felt better, I was coughing less. That very night I got well. Went back to school next day." Mrs. L. Stone, 915 West End Avenue, New York.

Action  
ENDS COUGHS  
MEDICAL WAYTHE WAY  
OF A  
WOMAN

By Marguerite M. Marshall

KEEPING MARRIAGE OUT OF THE DOLDRUMS  
HERE'S a heretical but—it seems to us—extremely helpful new answer to the old question of how to be happy through married life. A vigorous west wind comes the message of Judge Thomas F. Graham of San Francisco, called "the great reconciler" because he has put together so many apparently broken marriages—in 30 years on the bench 23,400 divorce cases have been brought before him. Judge Graham's word to the wise wedded is simply this: "Go ahead and quarrel, then kiss and make up."

Perhaps the California correspondent who interviewed Judge Graham was a romantic bachelor—or spinster. Between the lines of the dispatch can be read his or her sense of shock at the Judge's declaration. Apparently there was a protest, with the following response from the bench:

"Certainly, quarrel! Why not? It not only puts a little spice into the scheme of things but also paves the way for the kiss and the reconciliation."

This realistic counsel is in refreshing contrast to the columns of sweetly sentimental, utterly wasted space on "how to avoid the quarrel"—as if any married couple could, or the forty-first! Nobody will call Kathleen Norris, the novelist, anything but an ardent defender of marriage and the home, even if she fumed to us: "I am so tired of seeing in the papers these pictures of couples who have lived together 25 or 50 years and never had a harsh word!" It simply cannot be done in the happiest married life!

We can't help it, Norris and Judge Graham, making an exception for married saints in human form (if any) and also for married suppressed virgins. If either partner to a marriage is such a meek worm that he (she) prefers always to disagree in silence rather than to defend his or her position to the point of a possible row, there will never be "word" in the home. Almost certainly, on the other hand, there will be not only tyranny, but a great and abiding dullness.

There are the storms which imperil marriage nearly as much as the doldrums. When two sensitive, intelligent, strong-willed individuals fall overwhelmingly in love and marry, the worst menace to their continued happiness is the long stretch of domestic monotony when nothing happens.

If fathers could find some way of getting pleasure out of the society of their young children, there would be fewer half-orphans in the American family of today.

One young father who had placed football in his sons' life and in the living room every evening and teaching them to play football.

These evenings of gay, rough and tumble play gave him a basis of comradeship with his children which has developed through the years into the happiest sort of relationship.

Teaching a child to do something which we ourselves enjoy is the best basis for comradeship. Fifteen minutes a day of any sort of play together is enough to establish father in his children's eyes as a real friend.

By Alice Judson Beale

## Comradeship

RADIO announcers seem to have no difficulty in persuading a great many persons to rise early to do a daily dozen.

But anyone who undertakes to get fathers to spend 15 minutes daily in companionship with their children seems to have undertaken a more difficult task.

One reason for this probably is that the individual who is interested in his health gets an immediate feeling of accomplishment and pleasure from setting up exercises, whereas many a father who is genuinely loyal to his responsibilities as a parent feels only boredom after he has talked to his child for more than 10 minutes.

If fathers could find some way of getting pleasure out of the society of their young children, there would be fewer half-orphans in the American family of today.

One young father who had placed football in his sons' life and in the living room every evening and teaching them to play football.

These evenings of gay, rough and tumble play gave him a basis of comradeship with his children which has developed through the years into the happiest sort of relationship.

Teaching a child to do something which we ourselves enjoy is the best basis for comradeship. Fifteen minutes a day of any sort of play together is enough to establish father in his children's eyes as a real friend.

## Care of House Plants

WHEN a potted plant starts decaying there may be worms in the soil, so water the plant with strong soap suds or use water containing ammonia or one teaspoonful to a quart of water. The worms that are not killed by the solution will come to the surface for air and can be destroyed. Use the suds several times but it is better to pour it through a funnel to prevent its getting on the plant.

It's hard to lay a finger on any fault," Beauty complains. "He behaves more like a gentleman every day—but he isn't interesting. I took him because he was a beast. I was just hanging on to life from hour to hour. I'll never again have such a cert of a time. How could I be certain he wouldn't break loose any minute?"

Whereas the Prince, her husband, laments: "So long as he's a beast and an ugly monster to look at, there was a strong chance she might leave me any minute. That was the wild romantic life for a red-blooded man—keeping hold on a woman with so good a reason for being ticklish. But now that I'm dangerous no longer, she'll stay till the end of time."

In short they are completely sure of each other—and completely bored. Then the Beauty's father, who evidently has achieved the philosophy of Judge Graham of San Francisco, makes an unhappy pair to a nice, lively row. It ends—again, according to Judge Graham—with kisses.

Honestly, this seems to us perfectly sound psychology. Whining, nagging, bullying, continual wrangling—these practices do indeed make married life intolerable. But an occasional sharp, spirited fit of opinion—a quarrel, if you please—is like a brief thunderstorm in a sultry spell—everyone feels better afterward.

(Copyright, 1931.)

## Lobster Chowder

One two-pound lobster cut into pieces, one quart milk, six large soda crackers split and buttered, a pinch of cayenne, two tablespoons butter rolled in one tablespoon flour. Scald milk, add soda crackers, cook for one minute, then add lobster and simmer for five minutes. Line dish with crackers and pour in chowder. This may also be made successfully with the lobster that comes in glass jars.

The School Teacher  
Who Turned Actress

HOLLYWOOD, Jan. 25.  
ACCORDING to real estate men, the State of Florida is noted for its charming variety—illuminating conditions, wonderfully fertile soil and general beauty. Occasionally, however, a raging land of plenty with disastrous results proving that Florida is of versatile moods.

It was in this character of country that Evelyn Brent was born.

She symbolizes it perfectly. Beautiful, calm and well poised, but capable of portraying stormy emotion to its fullest extent, she brings to the screen a cyclonic personality.

However, Florida did not claim Miss Brent for long. At an early age her family moved to Syracuse, N. Y., where she attended school.

An assistant director was assigned to show the "embryo school-teachers through the studio. He became interested in Evelyn Brent, later offering her "extra" work in a picture that was to start production in a few weeks.

She did not appear in amateur theatricals! The usual school plays bored her. Church socials and things of that sort were of no interest.

At this time it was Evelyn Brent's ambition to be a school teacher.

Those who have seen her characterizations on the screen can readily agree on her determination. Nothing ever would interfere with her plans. She entered a normal school in New York City.

THE strain of the work began to tell on Miss Brent and her physician advised her to take a vacation. She went to England, but was not destined to get much rest. She met Oliver Cromwell, an American playwright, who was looking for a girl to play an important part in "The Ruined Lady," which he was to present in London.

Cromwell pleaded with Evelyn to accept this part, to which she finally agreed. This engagement marked the beginning of a four-year stay in England, during which time she appeared in feature films produced by the Studio Ideal, Samson and other prominent British producing companies.

The same day Evelyn Brent reported for work at the Fort Lee film plant another girl began her career there as an extra. She was Priscilla Dean, who also attained fame on the screen. Miss Brent and Miss Dean became friends the first day on the "lot" and the friendship has lasted until the present time.

Several months of "extra" work followed her entrance into the World Film Co. Taking this work as seriously as everything else that interested her, Miss Brent pro-

gressed and soon was given an opportunity for better things. Her first significant part was in support of Olga Petrova, who liked her work so much that she kept her employed in various films for over a year.
